

# Protocol for Political Representatives or Candidates Visiting Queensland Rail Facilities, Stations or Workplaces

(Revised June 2023)

## 1 Purpose of this protocol

These guidelines are provided to assist Members of Parliament, other elected public representatives, endorsed candidates and political parties when seeking access to Queensland Rail Limited property.

1.1 In assessing applications, Queensland Rail will be guided by this protocol and the following priorities:

- safety
- customer and staff convenience
- operational requirements and efficiency
- integrity of pre-arranged commercial or promotional activities (e.g. charity events).

## 2 Core principle

2.1 Queensland Rail remains clearly independent from political parties and processes.

## 3 Political activities - outside of election periods

3.1 Outside of election periods, political activity cannot be conducted on any Queensland Rail property.

3.2 All political activities that do not fall within a declared election period must be conducted outside the boundary of Queensland Rail property. For a map detailing property boundaries, please contact [governmentstakeholder@qr.com.au](mailto:governmentstakeholder@qr.com.au). You will not need to complete the attached application form if you intend to conduct your activities outside of the boundary of Queensland Rail property.

3.3 In the case of local government, election periods are not clearly defined and so the Chief Executive Officer's delegate will use discretion in providing fair and reasonable access, guided by the principles and priorities outlined in this protocol.

## 4 Political activities - during election periods

4.1 During election periods, political candidates can apply to access Queensland Rail property. This access is provided in recognition of the public need for information during election periods.

4.2 Access will only be granted where the formal application process has been followed and a suitable location (excluding station platforms) can be identified. This location must be:

- safe
- convenient to our customers and staff
- not obstruct customers travelling to and from the station
- not likely to cause disruption to the workplace resulting in loss of production or efficiency.

## 5 Formal visits

5.1 Political representatives at local, state or federal level represent the interests of their communities and for that reason, are generally given access to inspect Queensland Rail sites.

5.2 The underlying purpose of these visits is to improve understanding of Queensland Rail infrastructure, services and operating environment.

5.3 To arrange a familiarisation visit, please contact [governmentstakeholder@qr.com.au](mailto:governmentstakeholder@qr.com.au). You will not need to complete an application under this protocol.
