

Burpengary station accessibility upgrade

Quarterly project update | July 2024

The Burpengary station accessibility upgrade is part of the State Government's ongoing investment to upgrade stations to make them accessible for everyone.

Project benefits

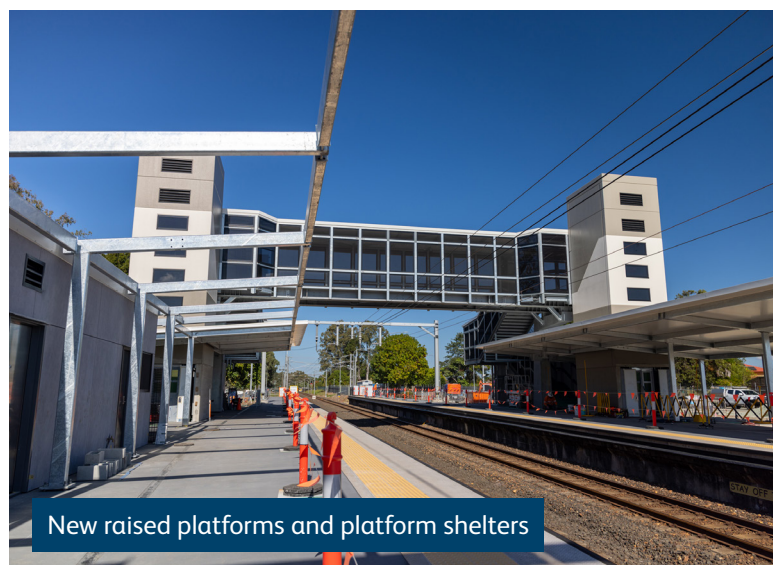

Burpengary station is being upgraded to make it more accessible, and easier for customers and the community to travel on our network. The new, modern station will help people in wheelchairs, parents with prams and those travelling with luggage or who are injured use the station with ease.

Construction progress

The new, accessible station upgrade is rapidly taking shape and is on track to reopen later this year. Since Burpengary station closed on 22 January 2024, major works delivered include:

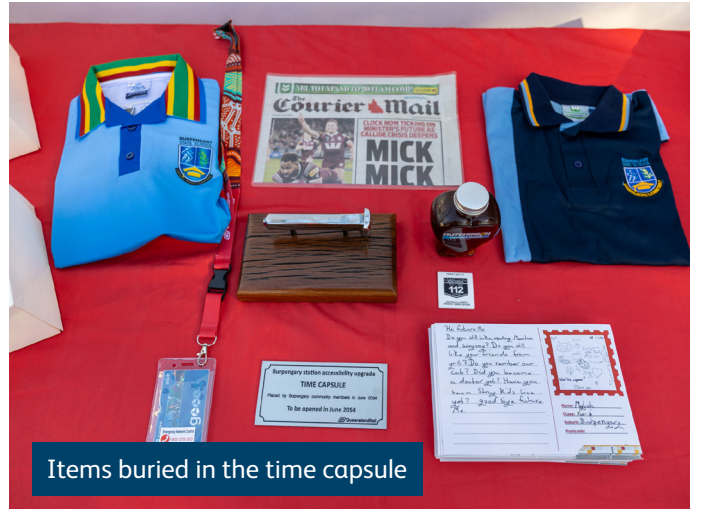

- ✓ installation of new platform awnings
- ✓ installation of lift shafts and the new footbridge
- ✓ installation of utility service infrastructure
- ✓ installation of new prefabricated station building
- ✓ platform raising
- ✓ installation of new platform tactiles
- ✓ station and platform access works
- ✓ community time capsule buried on 28 June
- ✓ progressing station carpark works.

New raised platforms and platform shelters

Upcoming works

You can expect to see the following upcoming activities on site:

- platform shelter works
- temporary bus stop relocation
- communications equipment room extension works
- lifts and footbridge works
- station office and access works
- carpark, electrical services and sewer and stormwater works.

Works will generally take place between 6am and 6pm Monday to Saturday, unless notified. Every effort will be made to carry out these works with respect for our neighbours and customers.

Alternative transport

Shuttle bus 661 continues to operate between Burpengary and Narangba stations to keep customers moving during the station upgrade.

We appreciate the community's understanding while we work to build you a better station.
