

Generator operation

Lindum station

27 November 2024 to 31 January 2025

What?

To enable critical infrastructure to operate while permanent power to the Lindum station precinct is being connected and tested, a generator will be in operation at the station.

We apologise for any inconvenience as we work to complete your new station.

When?

The generator is expected to operate continuously (24/7) from **Wednesday 27 November 2024 until Friday 31 January 2025**.

Where?

The generator will be located in the Sibley Road carpark, near the platform, opposite Rodney Street.

The project team will minimise noise impacts using noise attenuation measures including sound blankets to surround the equipment.

Impacts

Generator in operation

Around-the clock operation
(27 Nov to 31 Jan)

Every effort will be made to carry out these works with respect for our valued neighbours. We apologise for any inconvenience and thank you for your understanding as we build you a better Lindum station. Works may be subject to change due to weather conditions and operational requirements.
