

Morningside station accessibility upgrade

PROJECT UPDATE – MAY 2024

The Morningside station accessibility upgrade is part of the State Government's ongoing investment to upgrade stations to make them accessible for everyone.

Project benefits

Morningside station is being upgraded to make it more accessible, and easier for customers and the community to travel on our network.

The new, modern station will help people in wheelchairs, parents with prams and those travelling with luggage or who are injured, use the station with ease.

Construction progress

Work has been progressing on site including:

- excavation of old platforms
- removal of old concrete footbridge ramps
- removal of station building awning
- platform extension and piling works (pictured right)
- installation of the first new lift shaft modules (pictured below).

Upcoming works

Customers and the local community can expect to see an increase in activity in the following weeks:

- installation of the new footbridge
- installation of the lift shafts
- construction of the new raised platforms.

Works will generally take place between **6am and 6pm Monday to Saturday**, unless notified. Every effort will be made to carry out these works with respect for our neighbours and customers.

Upcoming weekend works

Around the clock works will take place during planned track closures on the Cleveland line on the following weekends in June and July:

- 6am Saturday 1 to 6am Monday 3 June
- 6am Saturday 15 to 6am Monday 17 June
- 6am Saturday 29 June to 6am Monday 1 July
- 6am Saturday 6 July to 6am Monday 8 July

Impacts

During the station upgrade, you can expect:

- the footbridge and station carpark will be closed during the above times
- increased personnel, vehicle and truck movements within the station precinct
- construction noise and machinery.

Alternative transport

Shuttle bus 237 continues to operate between Morningside and Cannon Hill stations to keep customers moving during the station upgrade.
