QUEENSLAND RAIL VALUES:

1 Queensland Rail - We do better together
Treat others with respect - We appreciate everyone's contributions and differences
Empower our people - We have confidence in our people
Act Safely - We work safe, to go home safe
Make a positive difference - We learn from today, to improve tomorrow

Position Purpose

As a member of the Alliance Team, provide leadership ensuring effective engineering capability and efficient delivery process through the life cycle of the project (Design, Renewals, Implementation, Testing and Commissioning).

This role will support the successful delivery of the project integrating with broader operational and maintenance activities of Queensland Rail's Network business. This role will be embedded with the Alliance.

Position Responsibilities

1. Lead the provision of expert Signalling & Telecom(S&T) services, advice, and recommendations to complete the project in accordance with the project requirements, agreed scope, quality and safety considerations, the allocated budgets and timeframes to deliver the project benefits.
2. Maximise quality outcomes for Queensland Rail by coaching and supporting teams to effectively manage stakeholder relations and to communicate with positive impact.
3. Lead and coach individuals and teams in delivering quality outcomes through business improvements, technology development and innovation.
4. Ensure each project team demonstrates professional integrity and good business approach to S&T engineering products delivered to meet operational requirements and deliver balanced commercial outcomes.
5. Provide guidance, as a professional engineer, for S&T works and monitor and manage compliance of the team with the requirements of professional practice and the Quality Management System to provide consistent output of S&T services, ensure compliance with safety, operational and environmental legislation, regulations and practices.

Position Description

6. Establish and maintain relationships with internal and external stakeholders to facilitate effective S&T strategies and governance procedures and where applicable, build capability.
7. Actively promote and contribute to the achievement of project objectives and targets including providing a high level of customer service to internal and external customers; and work with relevant project stakeholders and external organisations through cooperation and teamwork.
8. Collaborate with key internal and external stakeholders in order to obtain advice and guidance relating to S&T initiatives and activities to provide the best possible advice and support to the project.
9. Achieve the project targets, objectives, performance measures, safety responsibilities and continually seek to implement business performance improvement initiatives.

Additional Factors

The appointee will be required to :-

- Comply with Queensland Rail's Code of Conduct;
- Observe all legal and safety obligations of the organisation;

What is the key selection criteria

1. High level of skill in Design, Renewals, Implementation, Testing and Commissioning of (HV Traction / Signalling / Track and Civil / Telecommunications) infrastructure.
2. High level of skill in leading and developing a team of professional engineers and technical officers.
3. High level of skill in the delivery of business focused technical S&T solutions that deliver commercial value in at least one area of S&T discipline.
4. High level of skill in coaching and leading multi disciplinary project teams to deliver sustainable commercial outcomes within a complex regulatory environment.
5. High level of skill in delivering commercial advantage and outcomes through business improvements, technology development and innovation.
6. High level of skill in meeting statutory, regulatory and policy obligations, particularly in relation to satisfy the safety, environment, contract processes and human resource requirements in a commercially focused business.
7. Knowledge of and willingness to commit to and work within Queensland Rail's Value and Behaviours.
