QUEENSLAND RAIL VALUES:

- 1 Queensland Rail - We do better together
- Treat others with respect - We appreciate everyone's contributions and differences
- Empower our people - We have confidence in our people
- Act Safely - We work safe, to go home safe
- Make a positive difference - We learn from today, to improve tomorrow

Position Purpose

Lead and be accountable for the successful delivery of the new Traffic Management System (TMS) to be rolled out across the QR Network. This rollout will span a suite of technical and operational projects and require coordinated involvement from senior management stakeholders across Queensland Rail. The role provides leadership and direction to Project Managers, and ensures the alignment and integration of projects within the portfolio to ensure consistency and leverage where possible.

Position Responsibilities

1. Participate as a member of Major Projects Office management team to provide expert advice on major train control projects and change management initiatives across Queensland Rail through effective day-to-day strategy formulation, customer, business partner and stakeholder engagement, financial and commercial excellence and people leadership.
2. Serve as single point of accountability for the successful delivery of the approved train control projects being managed.
3. Work within the enterprise project management frameworks and governance arrangements appropriate for large scale operational projects with significant touch-points and stakeholder relationships across Queensland Rail.
4. Take an active role in the development of project delivery planning and obtain and provide program and project management capability to drive the delivery of operational projects.
5. Lead and manage a team of project managers and SME's, each with responsibility for a major TMS project, tracking progress against major milestones and providing organisational-level guidance.
6. Lead internal stakeholder relations at executive and senior management level, ensuring that their engagement remains high and holding them accountable for supporting deliverables as appropriate.

7. Lead external stakeholder relations, including those with senior government influence and private sector involvement, to ensure clear passage of operational projects through external environment.

Additional Factors

The appointee will be required to :-

- Comply with Queensland Rail's Code of Conduct;
- Observe all legal and safety obligations of the organisation;

What is the key selection criteria

1. High level of skill in program management with Train Control Systems.
2. High level of skill in the delivery of enterprise-wide projects in a large and complex organisation.
3. High level of skill in directing major project initiatives against a backdrop of significant organisational change.
4. High level of skill in leadership capability in a large and complex organisation, focused on building a customer focused, performance-based culture.
5. High level of influencing, interpersonal, consultation, relationship building and negotiation skills that build and sustain productive relationships and partnerships.
6. Knowledge of and willingness to commit to and work within Queensland Rail's Values and Behaviours.
