QUEENSLAND RAIL VALUES:

- 1 Queensland Rail - We do better together
- Treat others with respect - We appreciate everyone's contributions and differences
- Empower our people - We have confidence in our people
- Act Safely - We work safe, to go home safe
- Make a positive difference - We learn from today, to improve tomorrow

Position Purpose

To prepare and deliver technical specialist rail training and associated assessment (both classroom and field-based) and support activities to ensure Queensland Rail employees and contractors are safe, competent to perform their role, and compliant with legislative, regulatory and Enterprise requirements.

Position Responsibilities

1. Prepare and deliver training programs and assessment activities in accordance with relevant and approved capability and competency frameworks, relevant legislative, regulatory or Enterprise requirements, appropriate trade qualifications/certifications, and Safeworking specification, if applicable.
2. Provide technical, specialist knowledge and information to support the design, development, review, and maintenance of learning packages and resources that comply with relevant quality and assurance standards and specifications, and all relevant legislative, regulatory and Enterprise training requirements and competency frameworks.
3. Assess and record learners' knowledge and understanding of learning content utilising agreed assessment methods, and provide to the relevant RTO and other regulatory bodies as required.
4. Support the Training Program and Support Officer by providing advice and guidance to the workplace managers of Electrical Signalling trainees around their development and progression.
5. Complete LMS trainer and assessor data entry and maintain records of training and competency activities in relevant records management systems.
6. Support efficiency and effectiveness in learning practices by challenging traditional thinking and participating in the adoption of

Position Description

the 70:20:10 learning model and the application of contemporary learning solutions.

7. Build and maintain positive, effective relationships with managers and learners to facilitate their understanding of 70:20:10 and to promote a culture of continuous learning.
8. Maintain training and Electrical Signalling competence through professional development, and industry currency.

Additional Factors

The appointee will be required to :-

- Comply with Queensland Rail's Code of Conduct;
- Observe all legal and safety obligations of the organisation;
- Be available to travel;
- Be required to work with little direct supervision and perform work outside normal working hours if required.

What is the key selection criteria

1. High level of skill and capability in planning and delivering effective Electrical Signalling, specialist learning programs to achieve targeted learning outcomes that meet client needs, expectations and compliance requirements.
2. Extensive knowledge in the specialist rail discipline of Electrical Signalling.
3. High level of interpersonal, consultation, and negotiation skills.
4. High level of planning and organisational skills with regard to the implementation of training and assessment plans and programs.
5. High level of skill in problem solving to influence effective decision making.
6. Substantial knowledge of the Australian Quality Training Framework (AQTF), adult learning concepts and evaluation, and training processes relevant to vocational, post-compulsory education and training within an RTO.
7. Substantial skills in PC based applications and relevant corporate databases and records management systems.
8. Knowledge of and willingness to commit to and work within Queensland Rail's Values and Behaviours
