Position Purpose

Manage the planning and implementation of assurance activities to meet the requirements of the applicable Queensland Rail Workplace Health and Safety, Electrical Safety, Rail Safety and Environmental legislative, regulatory and organisational standards and risks. Provide leadership and support to the Regional Safety, Risk and Environment Assurance team in planning and conducting assurance activities to measure the effectiveness of risk controls.

Position Responsibilities

1. Undertake formal assurance activities in accordance with approved assurance processes to assess and determine the control effectiveness of organisational Regional risks.
2. Liaise with external and internal stakeholders to develop, revise and continuously improve the assurance program, management systems and coordinate information dissemination on behalf of the organisation Regional to meet regulatory requirements.
3. Report to Management on the outcomes of assurance activities including making recommendations for improvement and organising and attending management review meetings.
4. Capture, report and analyse the information gathered during assurance process activities and make recommendations to management to highlight gaps, drive improvements and escalate issues as required.
5. Provide independent safety and environment assurance training, coaching, mentoring, support and advice to the relevant Regional business functions to undertake less complex safety and environment assurance activities within their business, liaise with and influence line-of-business Managers to ensure that the business manages risk, and remains informed and compliant with assurance related changes to relevant legislation and standards.

6. Assist team with development, promotion and implementation of a safety and environment management system that complies with the relevant legislative and regulatory requirements and clearly demonstrates how assurance activities manage emerging organisational and functional area risks and issues including control effectiveness.
7. Contribute to achieving Queensland Rail's safety and environment assurance program business targets, objectives, performance measures safety and environment responsibilities and continually seek to implement business performance improvement initiatives

Additional Factors

The appointee will be required to :-

- Comply with Queensland Rail's Code of Conduct;
- Observe all legal and safety obligations of the organisation;

What is the key selection criteria

1. High level of skill in leading and coordinating safety and environment management assurance activities and systems to address assurance requirements in a large complex and multi-disciplined organisation.
2. High level of skill in the provision of detailed safety and environment assurance advice, coaching, training and support to line-of-business and senior managers and produce high level complex safety and environment assurance reports.
3. High level of skill in stakeholder management including influencing consultation, relationship building and negotiation skills that build and sustain productive relationships and deliver quality safety outcomes.
4. Substantial knowledge of enterprise wide: Assurance and risk management processes and principles, compliance methodologies, including but not limited to Work Health and Safety, Rail Safety, Electrical Safety and Environment legislation and related ISO and AS/NZS standards.
5. Substantial level of analytical, problem solving, interpersonal and communication skills including the ability to think and work strategically.
6. High level of organisational and time management skills with the ability to meet deadlines while working autonomously or as a member of a team with limited supervision.
7. Knowledge of and willingness to commit to and work within Queensland Rail's Values and Behaviours.
