QUEENSLAND RAIL VALUES:

1 Queensland Rail - We do better together
Treat others with respect - We appreciate everyone's contributions and differences
Empower our people - We have confidence in our people
Act Safely - We work safe, to go home safe
Make a positive difference - We learn from today, to improve tomorrow

Position Purpose

Deliver efficient project controls that drive continuous improvements within the project controls framework. This includes managing cost estimations, risk management, and project controls (cost, scope, and schedule), while ensuring assurance and providing related reporting.

Position Responsibilities

1. Responsible for providing support to delivery teams in project controls, cost estimation and risk management to ensure the consistent application of efficient and streamlined portfolio, program and project controls for the Regional Project Delivery team including standardising and continuously improving processes, tools and templates in the portfolio, program and project controls space.
2. Establish, implement and maintain an efficient and streamlined system of effective project controls, guidelines and tools ensuring full compliance with Queensland Rail's enterprise wide Project Management Framework.
3. Provide continuous compliance and assurance for financials, schedule, scope and risk to assist in monitoring and enhancing the effectiveness of systems and processes used by the Regional Project Delivery area.
4. Conduct internal and external benchmarking against best practice project controls and risk management practices to support effective and efficient program delivery.
5. Analyse trends, identify themes, risks, highlight exceptions and take proactive action to ensure Regional Project Delivery performance remains on track to achieve agreed targets.
6. Facilitate training and information sessions for relevant stakeholders for capability uplift and skills development.
7. Assist the Project Controls Manager in standardising and continuously

Position Description

improving processes, tools and templates in the portfolio, program and project controls space.
