QUEENSLAND RAIL VALUES:

1 Queensland Rail - We do better together
Treat others with respect - We appreciate everyone's contributions and differences
Empower our people - We have confidence in our people
Act Safely - We work safe, to go home safe
Make a positive difference - We learn from today, to improve tomorrow

Position Purpose

The position is responsible for the leadership of key stakeholders and subject matter experts involved in the development, stakeholder engagement and staged delivery of the ETCS Traffic Management System (TMS), Electronic Train Graph (ETG) and related systems to support the progressive rollout of ETCS on the QR network.

Position Responsibilities

1. Lead, develop and manage a program of works to enable the ETCS delivery stages to support Queensland Rail's strategic objectives and program delivery objectives.
2. Take a lead role as the key specialist and point of contact in Major Projects in relation to programs of work being managed by the projects ensuring that end user needs are met and that Queensland Rail's operational needs are taken into account during ETCS related product development.
3. Working closely with the ETCS technology partner/s to ensure systems, processes and methods are in place through various development, testing and implementation phases to bring end users on the journey to ensure a successful rollout of ETCS.
4. Lead key stakeholders, subject matter experts and advisors ensuring they have the capability and leadership support to deliver a high level of advice, support and technical expertise to both end users and ETCS delivery partners.
5. Identify, acquire and direct resources required, assuming performance management responsibility for both internal and contracted resources.
6. Ensure that the unit has work plans in place that complement those of the relevant project (e.g. Cross River Rail and ETCS) and manage all deliverables required by end users and ensure that the unit delivers against planned milestones and benchmarks and reports as required to

Position Description

senior leaders.

7. Conduct and implement Change and Risk Management activities throughout the project life cycle and conduct appropriate consultation with stakeholders.
8. Assume responsibility for compliance with safety frameworks and safety outcomes across the scope of work.

Additional Factors

The appointee will be required to :-

- Comply with Queensland Rail's Code of Conduct;
- Observe all legal and safety obligations of the organisation;

What is the key selection criteria
