QUEENSLAND RAIL VALUES:

1 Queensland Rail - We do better together
Treat others with respect - We appreciate everyone's contributions and differences
Empower our people - We have confidence in our people
Act Safely - We work safe, to go home safe
Make a positive difference - We learn from today, to improve tomorrow

Position Purpose

Lead and manage the successful delivery of all rail infrastructure works under the Logan and Gold Coast (LGC) Rail Alliance package for the LGC Faster Rail project. Oversee the integration of track, structures, stations, and signalling systems to ensure compliance with industry best practices, Queensland Rail, and Department of Transport and Main Roads (DTMR) requirements.

Position Responsibilities

1. Lead and manage the successful delivery of all infrastructure works under the LGC Rail Alliance package for the Logan and Gold Coast Faster Rail project, ensuring alignment with Queensland Rail and DTMR objectives.
2. Provide leadership, technical, and professional guidance to multi-disciplinary teams overseeing rail infrastructure, track, stations, and associated works within the LGC Rail Alliance.
3. Oversee the delivery of all program elements, ensuring that track, structures, stations, and signalling systems are integrated and delivered to LGC Rail Alliance standards.
4. Manage the overall program of works within allocated budgets, schedules, and safety targets, ensuring smooth coordination across multiple LGC Rail Alliance infrastructure components.
5. Identify and mitigate broad-scale safety, legal, environmental, and commercial risks across all infrastructure workstreams within the LGC Rail Alliance.
6. Provide detailed reporting on overall program progress, including cross-discipline coordination, risk management, and schedule integration, ensuring compliance with LGC Rail Alliance performance measures.
7. Manage key stakeholder relationships across all infrastructure

Position Description

delivery areas, ensuring alignment between track, station, and other rail assets within the LGC Rail Alliance.

8. Ensure effective coordination between North or South delivery teams, maintaining consistency and efficiency in execution across the entire LGC Rail Alliance project footprint.
9. Act as the primary escalation point for risks impacting the entire program, providing strategic interventions where necessary within the LGC Rail Alliance leadership framework.

Additional Factors

The appointee will be required to :-

- Comply with Queensland Rail's Code of Conduct;
- Observe all legal and safety obligations of the organisation;

What is the key selection criteria

1. High level of skill in leading and providing strategic direction for the delivery of multi-disciplinary rail infrastructure projects, ensuring alignment across track, structures, stations, and signalling systems.
2. Extensive knowledge of rail transport operations and associated legislation, with a strong understanding of complex brownfields rail project delivery and governance principles within an alliance-based model.
3. High level of skill in program and project management to optimise safety, quality, and cost-effectiveness in the delivery of large-scale rail infrastructure programs, including commercial arrangements, contract negotiation, and reporting.
4. High level of skill in driving change and innovation across rail infrastructure works, supporting the integration of track, signalling, and structures in a live operational environment.
5. High level of skill in stakeholder engagement, consultation, and negotiation to influence decision-making and maintain strong relationships with internal and external stakeholders across all rail infrastructure disciplines.
6. Knowledge of and willingness to commit to and work within Queensland Rail's Values and Behaviours.

Health, Safety and Environment Responsibilities

Comply with the overarching document called Health, Safety and Environment Responsibilities MD-11-6843 located in the Safety and Environment Management System.
