QUEENSLAND RAIL VALUES:

- 1 Queensland Rail - We do better together
- Treat others with respect - We appreciate everyone's contributions and differences
- Empower our people - We have confidence in our people
- Act Safely - We work safe, to go home safe
- Make a positive difference - We learn from today, to improve tomorrow

Position Purpose

Manage the telecommunications works program to ensure effective delivery (safety, on time, on budget and within scope) of the Logan & Gold Coast Faster Rail Project. Provide direct connection with SMEs and Asset Recipients for the Procurement/Design/Construction & Assurance activities involved with Tele & Op Sys installation across the project.

Position Responsibilities

1. Manage the delivery of the telecommunications program of works, coordinating the delivery, safety, cost and quality outcomes to meet business needs and expectations.
2. Develop the telecommunications program of work, assess priorities and required resources to ensure deliverable milestones are met.
3. Build and manage relationships with clients, customers, Project Managers and other stakeholders on all telecommunications program matters.
4. Develop, implement, monitor and report on the telecommunications program of works.
5. Ensure telecommunications interfaces are managed including internal delivery, outsourced work and delivery partners interfacing significantly to ensure customer needs are met throughout the project.
6. Provide program status and outcomes to meet the diverse range of business, client and stakeholder requirements.
7. Constantly seeking to implement new strategies or processes to improve the delivery of the telecommunications program more effectively and efficiently.

Additional Factors

The appointee will be required to :-

Position Description

- Comply with Queensland Rail's Code of Conduct;
- Observe all legal and safety obligations of the organisation;

What is the key selection criteria

1. High level of skill in the delivery of a telecommunications program of works in a commercially performing business.
2. High level of skill in leadership and management of effective teams in the delivery of telecommunications engineering works.
3. High level of skill in supporting individuals and teams in maximising commercial outcomes through relationship management and communication (verbal and written).
4. High level of leadership, people management, interpersonal, communication, planning, coordination and negotiation skills.
5. High level of skill in program planning and managing of operational and capital budgets for the team to ensure agreed milestones, performance indicators, monetary targets and service outcomes are achieved.
6. Substantial level of skill in delivery, commercial advantage outcomes through business improvements, technology development and innovation.
7. Knowledge of and willingness to commit to and work within Queensland Rail's Values and Behaviours.
