QUEENSLAND RAIL VALUES:

- 1 Queensland Rail - We do better together
- Treat others with respect - We appreciate everyone's contributions and differences
- Empower our people - We have confidence in our people
- Act Safely - We work safe, to go home safe
- Make a positive difference - We learn from today, to improve tomorrow

Position Purpose

To carry out the installation, maintenance and repair of telecommunications and electronic equipment and report on the performance and condition of the telecommunication asset to ensure safe and effective operation.

Position Responsibilities

1. Install, maintain and repair telecommunication and electronic equipment in accordance with predefined work programs.
2. Ensure all work is performed in accordance with Workplace Health and Safety (WH&S) requirements and legislative policies including work activities performed by subordinate employees.
3. Ensure all work is performed in accordance with technical and operational specification and standards including work activities performed by subordinate employees.
4. Maintain records and associated documentation relating to asset condition, maintenance programs and costing systems.
5. Report on actual work performed against the scheduled maintenance program and equipment performance and condition irregularities.
6. Progress the implementation and application of work procedures and practices in pursuit of assuring and continuously improving quality.

Additional Factors

The appointee will be required to :-

- Comply with Queensland Rail's Code of Conduct;
- Observe all legal and safety obligations of the organisation;
- Be available for call out/stand by duties, overtime and higher grade relief as required;
- Work away from home station and travel throughout Queensland as required;

Position Description

- Undertake further training considered necessary for the effective performance of the duties associated with the position and career development;
- Work in a semi autonomous manner within broad guidelines.
