QUEENSLAND RAIL VALUES:

- 1 Queensland Rail - We do better together
- Treat others with respect - We appreciate everyone's contributions and differences
- Empower our people - We have confidence in our people
- Act Safely - We work safe, to go home safe
- Make a positive difference - We learn from today, to improve tomorrow

Position Purpose

To carry out the installation, maintenance and repair of overhead traction power equipment and report on the performance and condition of the traction power asset to ensure it's safe and effective operation.

Position Responsibilities

1. Install, maintain and repair the overhead traction power equipment in accordance with predefined work programs to ensure the safe and effective operation of the traction power network.
2. Ensure all work is performed in accordance with Workplace Health and Safety (WH&S) requirements and legislative policies including work activities performed by subordinate employees.
3. Ensure all work is performed in accordance with technical and operational specifications and standards including work activities performed by subordinate employees.
4. Implement, co-ordinate traction system isolation and access in accordance with Queensland Rail Standards.
5. Implement, co-ordinate worksite safe working protection in accordance with Queensland Rail Standards.
6. Maintain all records and associated documentation relating to asset condition, maintenance programs and costing systems.
7. Report on actual work performed against scheduled work program and equipment performance and condition irregularities.
8. Progress the implementation and application of work procedures and practices in pursuit of ensuring continuous quality improvement.

Additional Factors

- The appointee will be required to :-
- Comply with Queensland Rail's Code of Conduct;
 - Observe all legal and safety obligations of the organisation;

Position Description

- Be available for call out/standby duties, overtime and higher grade relief as required;
- Be available to work away from home station and travel as required;
- Undertake further training considered necessary for the effective performance of the duties associated with the position and career development;
- Work in a semi-autonomous manner within broad guidelines;
- Work outside normal working hours when required;
- Attend training courses as required

What is the key selection criteria

1. Sound knowledge of all types of overhead traction power equipment and their relevant maintenance and installation standards.
2. Sound knowledge of High Voltage Operating Procedures and safe working practices and principles
3. Sound level of skill in the installation, repair and maintenance of overhead traction power equipment to predetermined standards and procedures.
4. Sound knowledge of high voltage Safeworking practices and procedures.
5. Sound knowledge of WH&S Act and relevant Queensland Rail safety policies and procedures.
6. Sound interpersonal, oral and written/digital communication skills.
7. Knowledge of and willingness to commit to and work within Queensland Rail's Values and Behaviours.
