QUEENSLAND RAIL VALUES:

1 Queensland Rail - We do better together
Treat others with respect - We appreciate everyone's contributions and differences
Empower our people - We have confidence in our people
Act Safely - We work safe, to go home safe
Make a positive difference - We learn from today, to improve tomorrow

Position Purpose

The position is responsible for the leadership of key stakeholders and subject matter experts involved in the production and delivery of Business Readiness rail management advice and activity related to enhancements of systems, infrastructure, and planning for the Major Projects.

Position Responsibilities

1. Lead, develop and manage a program of works to enable the successful implementation of Major Projects as it relates to Lines of Business activities.
2. Take a lead role as the key specialist and point of contact in Major Projects in relation to programs of work being managed by the projects ensuring that Lines of Business needs are met and that strong stakeholder relationships are maintained.
3. Lead key stakeholders, subject matter experts and advisors ensuring they have the capability and leadership support to deliver a high level of advice, support and technical expertise to both Lines of Business and Major Projects.
4. Identify, acquire and direct resources required, assuming performance management responsibility for both internal and contracted resources.
5. Ensure that the unit has work plans in place that complement those of the relevant project (e.g. Cross River Rail and ETCS) and manage all deliverables required by Lines of Business and ensure that the unit delivers against planned milestones and benchmarks and reports as required to senior leaders.
6. Conduct and implement Change and Risk Management activities throughout the project life cycle and conduct appropriate consultation with stakeholders.

Position Description

7. Assume responsibility for compliance with safety frameworks and safety outcomes across the scope of work.

Additional Factors

The appointee will be required to :-

- Comply with Queensland Rail's Code of Conduct;
- Observe all legal and safety obligations of the organisation;

What is the key selection criteria

1. High level of operational project, change and risk management skills, to oversee the operationalization of a complex scope of works relevant to a Rail Operations business and the efficient running of the network.
2. High level leadership skill in successful management of multi-disciplinary professionals.
3. High level of interpersonal communication, consultation and negotiation skills that build and sustain productive relationships and partnerships with key stakeholders.
4. Substantial knowledge of the Queensland Rail network and operations.
5. High level problem solving and analytical skills.
6. Knowledge of and willingness to commit to and work within Queensland Rail's Values and Behaviours.
