Directors' report

The Directors present their report on the consolidated entity (referred to hereafter as the group) consisting of Queensland Rail Limited and the entity it controlled at the end of, or during, the year ended 30 June 2024.

Directors

D Marchant AM, Chair S Cantwell V Doogan (appointed 1 October 2023) M Goss L Lynch (appointed 1 October 2023) H Watson T Winters

Information relating to Directors' remuneration is contained in note 22 of the financial report.

Principal activities

During the year the principal activities of the group consisted of:

- South East Queensland (SEQ) above and below rail services;
- · Regional above and below rail services including Travel and Tourism Services; and
- Construction and maintenance of rail transport infrastructure.

Review of operations

The profit of the group for the financial year amounted to \$140.6 million (2023: \$149.8 million).

The group's shared purpose is to connect communities with a vision to deliver world-class rail services for our customers through our strategic priorities:

- Operating safely;
- Lifting operational performance;
- · Engaging our employees;
- · Being efficient and sustainable; and
- Supporting communities.

In the current reporting period the group continued to focus on driving cultural and strategic changes in the business to deliver a more integrated public transport structure for Queensland.

Dividends

In respect of the financial year ended 30 June 2024, a dividend of \$140.6 million was declared to the holders of fully paid ordinary shares (2023: \$149.8 million). This dividend will be paid on or before 30 November 2024. Refer to note 13.

Significant changes in the state of affairs

No significant changes in the state of affairs of the group occurred during the financial year.

Matters subsequent to the end of the financial year

No matters or circumstances have arisen since the end of the financial year which significantly affected, or may significantly affect, the operations of the group, the results of those operations, or the state of affairs of the group in future financial years.

Likely developments and expected results of operations

The group will continue to work collaboratively with the Queensland State Government in achieving major deliverables which include:

- European Train Control System;
- Cross River Rail;
- Queensland Train Manufacturing Program; and
- Station Accessibility Upgrades.

The new infrastructure will increase the group's capacity to meet the demand for rail services in South East Queensland.

Environmental regulation

The group is required to comply with relevant environmental legislation. Exposure in this area is primarily related to air, land and water pollution, management of flora and fauna, environmental approvals associated with works, reporting of energy and greenhouse gas emissions, management of contaminated land, and managing waste.

It is not possible for the group to provide an estimate of the future expenditure in these areas due predominantly to integration of obligations into existing business process and the variability of ad hoc obligation application dependant on activity scope and timeframe. Furthermore, expenditure associated with responding to matters such as environmental incidents are unpredictable.

Key regulatory obligations to which the group is subject are as follows:

- Aboriginal Cultural Heritage Act 2003
- Agricultural Chemicals Distribution Control Act 1966 and Regulation 1998 (Qld)
- Environmental Protection Act 1994 and Regulation 2019 (Qld)
- Environment Protection and Biodiversity Conservation Act 1999 and Regulations 2000 (Commonwealth)
- Ozone Protection and Synthetic Greenhouse Gas Management Act 1989 and Regulations 1995 (Commonwealth)
- National Greenhouse and Energy Reporting Act 2007 and Regulations 2008 (Commonwealth)
- Fisheries Act 1994 and Fisheries (General) Regulation 2019 (Qld)
- Planning Act 2016 and Regulation 2017 (Qld)
- Biosecurity Act 2014 and Regulation 2016 (Qld)
- Coastal Protection and Management Act 1995 and Regulation 2017 (Qld)
- Nature Conservation Act 1992 and Regulations (Animals 2020, Plants 2020, and Koala Conservation Plan 2017) (Qld)
- Torres Strait Island Cultural Heritage Act 2003
- Vegetation Management Act 1999 and Regulation 2012 (Qld)
- Waste Reduction and Recycling Act 2011 and Regulation 2011 (Qld)
- Water Act 2000 and Regulation 2000 and Regulation 2016 (Qld)
- Wet Tropics World Heritage Protection and Management Act 1993 and Wet Tropics Management Plan 1998 (Qld)

All compliance reporting obligations were met during the period.

The group coordinates with the Department of Environment and Science (DES) and other regulators on relevant environment incidents, investigations and other matters as required.

A clean-up notice was issued by the Department of Environment and Science in February 2019 in association with the inundation of a third-party operator train during flooding upon the Mt Isa Line, which resulted in the release of transported products to the environment. In late 2023 the notice was closed out by the regulator.

The group continues to actively monitor and prepare for upcoming legislative changes.

Information on Directors and officers

D Marchant AM GA/CD Chair

Mr Marchant was appointed as a Non-Executive Director on 7 October 2015, Interim Chair on 15 October 2018 and Chair on 29 March 2019. Mr Marchant has extensive Board experience and has held a number of executive and non-executive roles across a range of sectors including road, rail, water, gas, electricity, logistics and supply chain management. Mr Marchant is a former Chief Executive Officer of the Australian Rail Track Corporation and Director and Chair of the Australasian Railway Association. Mr Marchant also served as a Director of the Rail Industry Safety and Standards Board.

He has also worked as Managing Director of Lend Lease Engineering and Managing Director of Lend Lease Infrastructure Services, and as a Director of the Hunter Valley Coal Chain Coordination Company Pty Ltd and is a former Non-Executive Director of Airservices Australia.

Mr Marchant was appointed a Member of the General Division of the Order of Australia in 2013 for significant service to the rail industry through national structural reform and infrastructure upgrades and has been a member of the Australian Institute of Company Directors since 2000.

Mr Marchant is a Non-Executive Director and Chair of the Port Authority of New South Wales, Chair of its Nominations Committee, and a member of its Audit and Risk Committee and People and Culture Committee.

S Cantwell MBus, BBus, Grad Dip Transport & Logistics Management, FCILT, FCIEAM, GAICD Director

Mr Cantwell was appointed as a Non-Executive Director on 1 October 2016. Mr Cantwell has more than 40 years' experience in a broad range of strategic, functional and customer-facing roles within multi-billion dollar national and international business environments. In his executive career, Mr Cantwell has worked in a range of C-suite and Chief Executive Officer roles in both the private and public sector.

During six years at publicly listed Bradken, Mr Cantwell managed a global network of steel foundries and sales offices supplying differentiated consumable and capital products to markets in the resources, freight rail and power generation sectors in Australasia, Africa, China, India; as well as North and South America.

In his 33-year career at Queensland Rail, Mr Cantwell worked across various functions from entry level roles through to Chief Executive Officer. Mr Cantwell led what was then Australia's largest transportation company through significant restructuring and change, delivering growth and innovation across a broad portfolio of activities. As a result, he has established a reputation as a national leader in freight and passenger transport, and in supply chain innovation.

Mr Cantwell is a Non-Executive Director and Chair of Tasmanian Railway Pty Ltd, and an *ex-officio* member of its Audit, Risk and Compliance Committee, Major Projects Committee and People, Safety and Environment Committee. Mr Cantwell is also a Non-Executive Director of Port of Brisbane Pty Ltd and a member of its People and Performance Committee; and a Non-Executive Director of Lindsay Australia Limited and Chair of its Health and Safety Committee.

V Doogan B Agr Sc (Hons), B Sc, M Sc Director

Ms Doogan was appointed as a Non-Executive Director on 1 October 2023. She has over 20 years' experience in corporate governance, administration, risk assessment and management, industrial relations and policy development.

Ms Doogan was formerly President of Together Queensland Branch of the Australian Services Union, an Executive Committee member of the Queensland Council of Unions and a member of the Australian Services Union National Executive.

Ms Doogan is a Director of COEX Container Exchange (QLD) Limited and Chair of its People and Culture Committee.

Information on Directors and officers (continued)

M Goss LLB Director

Mr Goss was appointed as a Non-Executive Director on 1 October 2020. Mr Goss has over 30 years' experience as a lawyer in large and mid-tier Australian law firms and now practises in his own legal consultancy and holds a diverse range of Board positions.

Mr Goss has practised primarily in commercial law, agribusiness, banking and finance, and residential aged care.

Mr Goss is currently a Director of Metro South Hospital and Health Service (MSHHS) Board and member of its Audit and Risk Committee and Finance Committee; and an Executive Director of Beaumont Care Group of companies.

L Lynch BBus (Accountancy), MBA, FCPA, GAICD Director

Ms Lynch was appointed as a Non-Executive Director on 1 October 2023. She is an accomplished senior executive with significant board experience gained over 30 years in public transport operations, rail, mining, infrastructure, and finance.

Ms Lynch is a former Managing Director of three iconic public transport networks - Sydney Ferries, Melbourne Bus Franchise and Gold Coast Light Rail. She was previously CFO of Aurizon Network, and held executive roles with Downer EDI, Leighton Contractors, Minera Alumbrera (Argentina) and M.I.M. Holdings Ltd. Previous board positions include Non-Executive Director of Gold Coast Waterways Authority and Chair of its Audit and Risk Committee; Non-Executive Director of Aboriginal and Torres Strait Islander Legal Service (Qld) and member of its Audit and Risk Committee.

Her governance skills include oversight of finance, stakeholders, organisational culture and risk management in 24/7 operational workforces and major infrastructure projects.

Ms Lynch is a lay member of Queensland Legal Practice Committee and a Member of Brisbane Youth Services.

H Watson LLB, GradCertBus, MAICD Director

Ms Watson was appointed as a Non-Executive Director on 6 June 2018. Ms Watson is a lawyer and governance consultant bringing more than 30 years as a private sector lawyer and partner in regional and metropolitan practice in Queensland.

Ms Watson's non-executive director and commercial industry experience covers aged care, health and community services, affordable housing and Indigenous communities.

Ms Watson's governance experience, both as an advisor and director, includes organisations with large workforces, multiple locations, significant property interests, business model transitions and digital transformations, subsidiary structures and complex stakeholder interests.

Ms Watson is currently Chair and Member of Children's Health Queensland Hospital and Health Service Board; Chair and Member of Uniting (NSW and ACT) Board; Chair and Member of SpArc Foundation Pty Ltd as trustee for the SpArc Foundation Trust; Advisory Council Member of Queensland Family and Child Commission (QFCC); and Chair of the QFCC Audit and Risk Committee; and Chair of Happy Hero Holdings Pty Ltd (trading as Like Family) and Governance Committee Member of Royal Flying Doctor Service (Qld Section).

T Winters BSc Director

Ms Winters was appointed as a Non-Executive Director on 1 October 2020. Ms Winters is a senior executive with more than 35 years' experience in the resources and energy sectors. She has held senior corporate roles in issues management, government and regulatory affairs, media and communications, environment, land access, project commercialisation and construction, and asset management.

Ms Winters held a senior role in Federal public policy and politics for seven years and, for more than a decade, built and ran a successful government approvals and environmental management consultancy serving some of Australia's biggest resources companies and projects.

Ms Winters joined Santos in 2017 as Strategic Adviser External Affairs, responsible for government engagement and strategic communications, and is currently the Chief Strategy Officer and Chief of Staff.

Prior to joining Santos, Ms Winters was an adviser to Caltex Australia on public affairs and strategic issues management and was also a member of the QGC Executive Management team which developed the QCLNG Project in Queensland between 2011 and 2016.

Information on Directors and officers (continued)

P McNamara BCom Company Secretary

Mr McNamara was appointed as Company Secretary on 29 August 2011. Mr McNamara holds a Bachelor of Commerce and has more than 20 years' experience in managerial and senior governance roles within public and private entities operating in the property, transport and financial services industries.

Meetings of Directors

The number of meetings the company's Board of Directors and each Board committee held during the year ended 30 June 2024, and the number of meetings attended by each Director were:

	Во			Audit and Risk Committee		afety and nment nittee	Procur	jects and ement nittee

A = Number of meetings attended

B = Number of meetings held during the time the Director held office or was a member of the committee during the year

¹Appointed as a Director on 1 October 2023

Indemnification and insurance of officers

During the financial year, Queensland Rail Limited paid a premium in respect of an insurance contract to indemnify officers against liabilities that may have arisen from their position as officers of the parent and its controlled entity. Officers indemnified include the Company Secretary, Directors and all executive officers participating in the management of the group.

Further disclosure required under section 300 of the *Corporations Act 2001* is prohibited under the terms of the contract.

Proceedings on behalf of the company

No proceedings have been brought or intervened in on behalf of the group with leave of the Court under section 237 of the *Corporations Act 2001*.

Auditor's independence declaration

The auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 7.

Auditor

The Auditor-General of Queensland continues in office in accordance with section 327B(2) of the *Corporations Act 2001*, the Auditor-General is appointed in accordance with the *Auditor-General Act 2009*.

This report is made in accordance with a resolution of Directors.

D Marchant AM Chair

Brisbane, Qld 29 August 2024

AUDITOR'S INDEPENDENCE DECLARATION

To the Directors of Queensland Rail Limited

This auditor's independence declaration has been provided pursuant to s.307C of the *Corporations Act 2001*.

Independence declaration

As lead auditor for the audit of Queensland Rail Limited for the financial year ended 30 June 2024, I declare that, to the best of my knowledge and belief, there have been:

- (a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit
- (b) no contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Queensland Rail Limited and the entities it controlled during the period.

29 August 2024

Vaughan Stemmett as delegate of the Auditor-General Queensland Audit Office Brisbane

Notes to the consolidated statement of comprehensive income

1 Revenue from operations

	2024 \$'000	2023 \$'000
Revenue from contracts with customers		
Rail Transport Service Contract revenue	2,281,674	2,082,705
Network access revenue	212,209	182,755
Other revenue from customer contracts	87,901	84,490
Passenger transport revenue	48,332	52,895
Operating lease revenue	27,660	25,411
Other revenue		
Other revenue	2,658	4,139
	2,660,434	2,432,395

The group recognises revenue as performance obligations are satisfied and it is probable that future economic benefits will flow to the group. Revenue shall be measured at an amount that reflects the fair value of the consideration received or receivable.

(a) Rail Transport Service Contract

The Rail Transport Service Contract (TSC) between Queensland Rail Limited and the State of Queensland was executed on 30 June 2022, with an initial four-year term commencing 1 July 2022 and two extensions up to a maximum term of seven years.

As the performance obligations of the TSC are satisfied progressively, revenue is recognised over time. For the financial year as a whole, the practice of recognising revenue generated on a straight-line basis (over time) with periodic adjustments is consistent with the requirements of the Australian Accounting Standards.

Revenue for the provision of agreed services is fixed under the contract. This contract covers revenue to Queensland Rail Limited from the Department of Transport and Main Roads, on behalf of the State of Queensland, for services provided by Queensland Rail Limited associated with:

Citytrain and City Network Services

Queensland Rail Limited earns revenue for the delivery of train services on the City Network in accordance with the timetable and for maintenance of the City Network infrastructure. Scheduled services and non-scheduled services are the separately identifiable performance obligations for Citytrain, while the maintenance of infrastructure to a safe and fit for purpose standard throughout the year is the separately identifiable performance obligation for City Network.

Travel and Tourism Services

Queensland Rail Limited earns revenue associated with travel services provided to the public on Travel and Tourism Services. Scheduled services are the separately identifiable performance obligations for Travel and Tourism Services.

Regional Infrastructure Services

Queensland Rail Limited earns revenue for the maintenance of the Regional Network infrastructure. The separately identifiable performance obligation for Regional Network is the continued maintenance of the regional infrastructure to a safe and fit for purpose standard throughout the year. Revenue generated is recognised as the services are provided over time.

Major Project Integration Services

Queensland Rail Limited earns revenue for the provision of project and integration services provided to support the Cross River Rail and European Train Control System projects. The separately identifiable performance obligation for Major Projects Integration is the continued provision of support services for these projects throughout the year. Revenue generated is recognised as the services are provided over time.

1 Revenue from operations (continued)

(b) Network access

Revenue generated from rail network access is calculated based on a number of operating parameters (such as tonnage hauled) applied to either regulator approved tariffs or negotiated access agreements. In some circumstances where paths are not utilised by customers, a take or pay fee is charged. This fee is subject to individual access contracts. Revenue generated from the utilisation of the Access Rights is recognised over time as the services are provided. Take or pay revenue is recognised at a point in time.

(c) Passenger transport

Other train passenger service revenue comprises ticket and related sales on Travel and Tourism Services. Traveltrain and Tourist train revenues are recognised at a point in time, when the service is provided and income relating to future services is accounted for as a liability. The sale of catering items is recognised when the goods have been transferred to the customer.

(d) Income in advance from contracts with customers

	Passenger transport revenue	Other revenue from customer contracts	Rail Transport services contract revenue	Total
2024	\$'000	\$'000	\$'000	\$'000

3 Income tax expense

Income tax expense comprises current and deferred tax and is recognised in the consolidated statement of comprehensive income except to the extent that it relates to items recognised directly in equity. The income tax expense or benefit for the period is the tax payable or receivable on the current period's taxable income based on the income tax rate, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

(a) Income tax expense

Net deferred tax - debited / (credited) directly to equity	8, 11	144 144	53 53

(d) Income tax consolidation

Queensland Rail, parent entity and the head entity, and its wholly-owned Australian subsidiaries Queensland Rail Limited and On Track Insurance Pty Ltd are entities which are members of the Queensland Rail National Tax Equivalents Regime (NTER) income tax consolidated group. Income tax equivalent payments are made to the Queensland Government.

3 Income tax expense (continued)

(d) Income tax consolidation (continued)

In accordance with Interpretation 1052 *Tax Consolidation Accounting* the specified subsidiary members each recognise the tax effect of their own transactions in their financial statements and the head entity recognises the aggregate current income tax liability of the group and the benefit of any tax losses arising in the group in its financial statements.

The group compensates Queensland Rail for any current tax payable assumed and is compensated by Queensland Rail for any current tax receivable and deferred tax assets relating to unused tax losses or unused tax credits that are transferred to Queensland Rail under income tax consolidation legislation. The funding amounts are recognised as non-current inter-company receivables or payables.

Notes to the consolidated balance sheet

4 Inventories

	Current \$'000	2024 Non- current \$'000	Total \$'000	Current \$'000	2023 Non- current \$'000	Total \$'000
Raw materials and stores Work in progress Less: allowance for inventory	143,532 3,779	50,760 -	194,292 3,779	122,841 3,668	50,176 -	173,017 3,668
obsolescence	(9,730) 137,581	- 50,760	(9,730) 188,341	(8,350) 118,159	- 50,176	(8,350) 168,335

Inventory recognised as expense during the year ended 30 June 2024 amounted to \$68.4 million (2023: \$68.3 million). Inventory capitalised to property, plant and equipment during the year ended 30 June 2024 amounted to \$58.8 million (2023: \$71.5 million).

Judgements and estimates

The value of inventories reported includes items held in centralised stores, workshops and infrastructure and rollingstock depots. Cost comprises cost of purchase, cost of conversion and other costs incurred in bringing the inventory to its present location and condition. Inventories are valued at the lower of cost and net realisable value. Cost is determined using a moving average cost methodology. Items expected to be consumed after more than one year are classified as non-current.

The allowance for inventory obsolescence is based on assessments by management of particular inventory classes and relates specifically to infrastructure and rollingstock maintenance items. The amount of the allowance is based on a proportion of the value of damaged stock, slow moving stock and stock that has become obsolete during the reporting period.

5 Property, plant and equipment

(a) Movements in property, plant and equipment

	Work in progress \$'000	Land \$'000	Leased property \$'000	Buildings \$'000	Plant and equipment \$'000	Major plant and equipment li \$'000	nfrastructure \$'000	Total \$'000

(b) Initial recognition

Items of expenditure which are expected to provide future economic benefits are recognised as an item of property, plant and equipment, when in excess of:

- \$1 for land
- \$5,000 for plant and equipment and major plant and equipment
- \$10,000 for infrastructure and building assets; and
- \$20,000 for capital spares.

Expenditure that does not meet the definition of an asset is treated as an operating expense in the period in which the expenditure is incurred. If capital spares cost less than \$20,000, the item is recorded in inventory.

Property, plant and equipment is measured at cost less accumulated depreciation.

Work in progress

The cost of property, plant and equipment constructed by the group includes the cost of all materials used in construction, direct labour, site preparation, interest and foreign currency gains and losses incurred where applicable and an appropriate proportion of variable and fixed overheads based on direct labour hours.

The transfers between asset classes represents property, plant and equipment commissioned during the period.

The transfers to supplies and services represent expenditure incurred over the life of capital projects that are expensed in the current year on the basis that they are operational in nature or comprise expenditure on capital works on behalf of third parties in accordance with the group's capitalisation policy.

Land

The *Transport Infrastructure Act 1994* stipulates that the group only retains ownership of its non-corridor land. As such, only non-corridor land is recorded in these accounts. Ownership of corridor land remains with the Department of Resources on behalf of the State. This land is leased to the Department of Transport and Main Roads and subsequently subleased to the group for no cost. The sublease term is for an initial term of 100 years with a renewal option for an additional 100 years.

Major plant and equipment

Rollingstock is considered to be major plant and equipment.

Gifted and donated assets

Assets received from government at no cost are measured at fair value and recognised as income in advance which is subsequently amortised to government grants revenue over the useful life of the asset. Fair value means the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

(c) Subsequent and maintenance costs

Subsequent costs are only recognised as property, plant and equipment when there is an increase in the original assessed capacity or service potential of an asset, it is probable that future economic benefits associated with the item will flow to the group and the cost can be measured reliably. Costs related to repairs and maintenance activities are expensed when incurred. The carrying amount of any component accounted for as a separate asset is derecognised when replaced.

(d) Depreciation

Assets are depreciated from the date of acquisition, or, in respect of internally constructed or manufactured assets, from the time an asset is completed and held ready for use.

Where assets have separately identifiable components that are subject to regular replacement, these components are assigned useful lives distinct from the asset to which they relate.

Buildings, plant and equipment, major plant and equipment and infrastructure are depreciated on a straight-line basis over the useful life net of the residual value. Motor vehicles, included in plant and equipment, are depreciated using the diminishing value basis (percentages range from 13.64% to 33.00%).

Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

(d) Depreciation (continued)

Major spares purchased specifically for particular assets are recognised as an item of property, plant and equipment and depreciated in line with standard asset class lives.

Land and work in progress are not depreciated.

The depreciation rates used during the year were based on the following range of useful lives:

Infrastructure 6 - 100 years including	:
Rail	45 - 50 years
Sleepers	17 - 70 years
Ballast	30 years
Civil works	20 - 100 years
Bridges and tunnels	20 - 100 years
Electrification	15 - 50 years
Field signals	15 - 40 years
Infrastructure facilities	7 - 99 years
Telecommunications	6 - 50 years
Control and monitoring systems	10 - 30 years
Buildings 10 - 50 years including:	
Structures	15 - 50 years
Lifts and escalators	10 - 50 years
Air conditioning units	10 - 25 years
Fire and security equipment	10 - 30 years
Fit outs	10 - 15 years
Major plant and equipment 8 - 40 yea	-
Country and suburban cars	35 - 40 years
Locomotives	30 - 40 years
Overhauls	8 - 16 years
Plant and equipment	4 - 25 years

The remaining useful lives and residual value of assets are reviewed annually.

Judgements and estimates

On initial recognition management estimates the useful lives and residual value of property, plant and equipment. The useful life is based on the expected period of time over which economic benefits from use of the asset will be derived and the residual value is based on the consideration that may be received from a willing buyer at the end of the asset's useful life. Management reviews useful life and residual value assumptions on an annual basis having given consideration to variables including historical and forecast usage rates, technological advancements, changes in legal and economic conditions, condition of the asset and movement in market indices and prices. Any change in useful lives and residual values of property, plant and equipment is accounted for prospectively.

All asset classes are capitalised at their optimum componentised level to reflect current business replacement forecasts.

(e) Impairment

Assets (including work in progress) are tested for impairment annually to determine if there are indications that the carrying amount exceeds the recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the asset or cash generating unit (CGU).

For the purposes of assessing impairment, assets are grouped into CGUs at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets. The group identified three CGUs being South East Queensland, Regional and Mt Isa.

The group bases its impairment calculation on most recent budgets and forecast calculations, which are prepared separately for each of the group's CGUs to which the individual assets are allocated.

An impairment assessment on all CGUs was undertaken prior to reporting date. No impairment was recognised in the current or prior reporting period.

(e) Impairment (continued)

Judgements and estimates

Value in use calculations require the use of assumptions. These assumptions include the allocation of management's assessment of future cash flows for the next five years for the group to each CGU and the discounting of nominal amounts using the weighted average cost of capital applicable to that CGU. The cash flows include a terminal value which is determined using a perpetuity calculation after adjusting for annual growth.

(f) Non-current assets pledged as security

No assets have been pledged as security by the group.

(g) Cross River Rail

In the 2018/19 financial year the Queensland Government announced the delivery of the Cross River Rail (CRR) program comprising three major packages of work which will be delivered by a Consortia. This program includes:

- Tunnel, Stations and Development (TSD);
- Rail, Integration and Systems (RIS); and
- European Train Control System (ETCS) Level 2.

The CRR program will provide vital infrastructure to support the group's growth and transformation to a modern, customer-focused, world-class rail service and to cater for future public transport demand.

CRR is a 10.2 kilometre rail line which includes 5.9 kilometres of twin tunnels under the Brisbane River and Central Business District (CBD). The CRR program includes four new high capacity underground stations along with upgrades to existing Queensland Rail Limited owned stations.

Delivery of the program is led by the Cross River Rail Delivery Authority (CRRDA), established under the *Cross River Rail Delivery Authority Act 2016*. Upon completion of this program the group will operate the CRR network and provide passenger rail services for Queensland. This will require the safe and efficient delivery and integration of the CRR infrastructure into the existing South East Queensland rail network and operations.

Following an independent review of the ETCS Program, commissioned by the Project Sponsor the Department of Transport and Main Roads, it was decided that a new delivery model be established for rolling out ETCS Level 2 across the SEQ Rail Network. The ETCS Program Alliance was established and became effective in January 2022 charged with designing, developing and delivering the rollout of ETCS Level 2 across the SEQ Rail Network with the first phase of works to support the successful delivery of the CRR Project.

Judgements and estimates

The group will own and manage a portion of the assets associated with the CRR program including the ETCS Inner City network and RIS. Queensland Rail Limited, CRRDA and the Department of Transport and Main Roads are working collaboratively on the financial governance associated with this program.

The group recognises costs associated with the CRR RIS and ETCS programs in work in progress progressively as the costs are incurred by the CRRDA and transferred to the group. The balance of work in progress includes costs directly attributable to the acquisition of the infrastructure assets, that is expected to generate future economic benefits to the group.

Assets funded by Queensland Rail Limited and delivered under the RIS and ETCS programs are recognised as work in progress in the consolidated balance sheet and transferred from work in progress to the Fixed Assets Register progressively as they are available for use and capable of operating in the manner intended by management.

As at the reporting date, the composition of all the CRR assets and their legal ownership was still to be determined by the Queensland Government.

Details of non-recognition

Assets that have been operationalised but not yet transferred to Queensland Rail in the accounting period consist of Mayne Yard North (\$123.2 million), Yeronga Station and Overpass (\$40.1 million) and Fairfield Station (\$37.1 million). Queensland Rail formed the view that in the absence of formal transfer notices as per the *Queensland Rail Transit Authority Act 2013*, these assets would not be recognised in this reporting period. The non-recognition of these assets has resulted in an understatement of total assets by \$200.4 million and depreciation expense of \$8.8 million and a corresponding understatement in equity. This decision has been disclosed to provide a clear understanding of the entity's financial position.

Net book amount	9,517	39,721	49,238

Costs incurred in developing products or systems and costs incurred in acquiring software and perpetual licence fees that will contribute to future period financial benefits are recognised as intangible assets. Costs recognised as intangible assets include external direct costs of materials and service and direct payroll related costs of employees' time spent on the project. Software under development costs include only those costs directly attributable to the development phase and are only recognised following completion of technical feasibility and where the group has an intention and ability to use the asset. Software has a finite useful life and is carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method over the useful life which varies from 4 to 21 years.

6 Intangible assets (continued)

Software-as-a-Service (SaaS) arrangements are service contracts which provide the right to access the cloud provider's application software over the contract period. Costs incurred to access the application software are recognised as an expense in profit or loss over the period the services are provided. Costs incurred for configuration or customisation are usually expensed in profit or loss, except where these costs are for the development of software code that enhances or creates additional capability to existing systems or development costs of bridging modules and are recognised as an intangible asset when the recognition criteria are met.

Intangible assets have a threshold of \$100,000. If the cost is under \$100,000, expenditure is not recognised as an intangible asset and is treated as an operating expense in the period in which the expenditure is incurred.

7 Leases

(a) Details of leasing arrangements as lessee

The group routinely enters into leases for land and buildings, telecommunication infrastructure and plant and equipment. Lease terms for leases that are recognised on the consolidated balance sheet can range from 1 to 30 years. Several leases have renewal or extension options. The options are generally exercisable at market prices and are not included in the right-of-use (ROU) asset or lease liability unless the group is reasonably certain it will renew the lease.

The group is also party to specific arrangements which would satisfy the criteria for recognition as a lease under AASB 16 *Leases*. However, the consideration for these arrangements amount to, in most cases, \$1 per annum. These arrangements are commonly referred to as "peppercorn leases". These include access to corridor land from the Department of Transport and Main Roads. As the group recognises the ROU assets at cost, these leases are immaterial and therefore no ROU assets or lease liabilities are recognised.

Contracts may contain both lease and non-lease components. The group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices.

Lease terms are negotiated on an individual basis and contain a range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

The group recognises right-of-use assets and corresponding liabilities for all operating leases, except for short-term and low-value leases, at the date at which the leased asset is available for use by the group, in accordance with AASB 16.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payments that are based on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the group under residual value guarantees;
- the exercise price of a purchase option if the group is reasonably certain to exercise that option; and
- payments of penalties for terminating the lease, if the lease term reflects the group exercising that option.

Lease payments to be made, under reasonably certain extension options, are also included in the measurement of the liability.

Lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the group, the group's incremental borrowing rate is used, being the Queensland Treasury Corporation's (QTC) Fixed Loan Rates that correspond with the lease commencement month and lease term.

The group is exposed to potential future increases in variable lease payments based on an index or rate. When the rate or index is unknown and are not implicit in the contract, they are not included in the lease liability until they take effect. The group's exposure is primarily due to market reviews or consumer price indexation. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period based on a constant periodic rate of interest on the remaining balance of the liability for each period.

7 Leases (continued)

(a) Details of leasing arrangements as lessee (continued)

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability;
- any lease payments made at or before the commencement date less any lease incentives received;
- any initial direct costs, and
- restoration costs.

Right-of-use assets are depreciated over the lease term on a straight-line basis.

Payments associated with short-term leases and all leases of low-value assets are recognised as a direct expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. The group's low-value asset threshold is \$10,000. This threshold is applied to the value of the asset when new, regardless of the age of the asset when being leased.

When the group subleases any of the right-of-use assets, an assessment is made to classify the sublease as either a finance lease or an operating lease. Where the sublease is for the major part of the remaining economic life of the underlying asset (the lease term), the sublease is classified as a finance lease. The group uses the interest rate implicit in the lease, or if unattainable the discount rate used for the head lease, to measure the net investment in the lease. The right-of-use asset is derecognised and the net investment in the sublease is recognised at the commencement of the sublease.

Judgements and estimates

The determination of the right-of-use assets and lease liability is dependent on a number of judgements including:

- whether a contract is, or contains, a lease;
- · expected payment terms, for example monthly in advance;
- the index or rate in determining lease payments;
- · costs incurred in connection with a lease that are not part of the cost of the right-of-use asset; and
- reasonably certainty of exercising options.

(iii) Amounts recognised in the consolidated statement of cash flows

The total cash outflow for leases in 2024 was \$12.0 million (2023: \$12.1 million).

(b) Details of leasing arrangements as lessor

The group routinely leases out land and buildings and telecommunication infrastructure. The lease terms are up to 30 years and are non-cancellable. Refer to note 20(b).

The total cash inflow for leases in 2024 was \$6.1 million (2023: \$6.1 million).

8 Deferred tax assets

Recognition of unused capital tax loss Set-off of deferred tax liabilities pursuant to set-off provisions	11	- 3,490	1,596 (967)
Closing balance at 30 June	···		-

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends to either settle on a net basis, or to realise the assets and settle the liability simultaneously.

Judgements and estimates

The group's accounting policy for taxation requires management's judgement as to the types of arrangements considered to be subject to a tax. Judgement is also required in assessing whether deferred tax assets and certain deferred tax liabilities are recognised on the consolidated balance sheet. Deferred tax assets, including those arising from unrecouped tax losses, capital losses and temporary differences, are recognised only when it is considered probable that they will be recovered. Recoverability is dependent on the generation of sufficient future taxable profits.

9 Trade and other payables

		2024 Non-			2023 Non-	
	Current \$'000	current \$'000	Total \$'000	Current \$'000	current \$'000	Total \$'000
Trade payables Inter-company payables	298,164 428,265	- 46,776	298,164 475,041	281,862 431,634	- 40,288	281,862 471,922
Dividend payable	140,611	-	140,611	149,793	-	149,793
Other payables	16,638	-	16,638	4,554	-	4,554
	883,678	46,776	930,454	867,843	40,288	908,131

Trade and other payables represent liabilities for goods and services provided to the group prior to the end of the financial year which are unpaid. Trade and other payables are measured initially at the transaction price and subsequently at amortised cost due to the current nature of these liabilities. The amounts are unsecured and are usually paid within the terms set by the supplier.

10 Provisions

	2024 Non-			2023 Non-			
	Current \$'000	current \$'000	Total \$'000	Current \$'000	current \$'000	Total \$'000	
Litigation provision	3,878	841	4,719	8,341	830	9,171	
Land remediation provision	49	4,519	4,568	69	4,729	4,798	
Make good provision	-	36	36	-	36	36	
Other provisions	-	-	-	-	-	-	
	3,927	5,396	9,323	8,410	5,595	14,005	

Provisions are recognised when the group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

(a) Litigation provision

Provision is made for the estimated liability for litigation claims. Litigation claims are assessed separately for common law, statutory and asbestos claims.

Judgements and estimates

The determination of the provision required is dependent on a number of assumptions including the total future cost to finalise existing open claims.

(b) Land remediation provision

This provision recognises the estimated costs to remediate potential contaminated land in accordance with the group's constructive obligations. These estimated costs have arisen as a result of historical land use and activities with potential for causing contamination.

The provision for land remediation is the present value of management's best estimate of the expenditure required to remediate and / or manage potentially affected land at the reporting date. Management undertake an annual review of provision balances. Detailed reviews by a suitable qualified external party are carried out approximately every 5 years with consideration given to technology developments and industry standards, and provisions updated accordingly.

Judgements and estimates

The determination of the provision required is dependent on estimations of the expenditure required to settle the land remediation or management obligation.

(c) Other provisions

A provision for flood repair expenditure resulting from Tropical Cyclones Jasper in December 2023 and Kirrily in January 2024 was recognised in the period. Flood repair works commenced in January 2024 and were completed by 30 June 2024.

The provision for flood repair costs represented the present value of management's best estimate of the incremental expenditure required to return impacted assets to their required operational condition. The provision was fully utilised by 30 June 2024.

Risk

17 Financial risk management

(a) Financial instruments categories

Financial instruments are categorised into one of three measurement bases - amortised cost (AC), fair value through other comprehensive income (FVOCI) or fair value through profit or loss (FVTPL).

Financial assets and financial liabilities are recognised in the consolidated balance sheet when the group becomes party to the contractual provisions of the financial instrument. The group has the following categories of financial assets and financial liabilities:

	2024 \$'000	2023 \$'000
Financial assets		
Financial assets at AC		400.400
Cash and cash equivalents	1,933	108,489
Trade and other receivables	80,951	75,430
Financial assets at FVOCI		
Derivative assets	-	8
Total financial assets	82,884	183,927
Financial liabilities <i>Financial liabilities at AC</i> Trade and other payables Borrowings	930,454 4,998,634	908,131 4,460,000
Lease liabilities Financial liabilities at FVOCI	71,926	80,270
Derivative liabilities	-	487
Total financial liabilities	6,001,014	5,448,888

(b) Risks arising from financial instruments

The group's activities expose it to a variety of financial risks including market risk, credit risk and liquidity risk.

Financial risk management is carried out by the group under policies approved by the Board of Directors (the Board).

17 Financial risk management (continued)

(b) Risks arising from financial instruments (continued)

The carrying amounts of trade receivables and payables are assumed to approximate their fair values due to their short-term nature.

(i) Market risk

Foreign exchange risk

The group is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the US Dollar (USD), the Euro (EUR), the Japanese Yen (JPY) and the British Pound Sterling (GBP).

The group's exposure to foreign exchange risk at reporting date was as follows:

	USD \$'000	30 June EUR €'000	≥ 2024 JPY ¥'000	GBP £'000	USD \$'000	30 June EUR €'000	e 2023 JPY ¥'000	GBP £'000
Cash and cash equivalents Forward exchange contracts (qualifying for	13	388	81,850	1	4	10	1,226	-
hedge accounting)	-	-	-	-	-	98	299,060	-
Net exposure	13	388	81,850	1	4	108	300,286	-

The group uses derivative financial instruments such as foreign exchange contracts to hedge risk exposures. The derivative financial assets and liabilities held by the group have been classified as level 2 on the fair value hierarchy as values are indirectly derived from market indices. Trading for profit is strictly prohibited.

The group's foreign exchange risk management policy dictates the level of hedging to be undertaken within the Board approved limits.

Derivatives are recognised at fair value. The group applies hedge accounting to transactions which are highly probable.

Interest rate risk

The group's main interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the group to cash flow interest rate risk. Borrowings issued at fixed rates expose the group to fair value interest rate risk. The Queensland Treasury Corporation (QTC) has been authorised to manage the interest rate risk of the group within limits in accordance with the risk profile approved by the Board.

Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

Financial liabilities at amortised cost

The fair value of borrowings is provided by the QTC. Fair value is calculated using the market value of the underlying debt portfolio, or in the case of fixed rate loans on a discounted cash flow basis. The carrying amounts and fair values of borrowings at reporting date are:

	2024 Carrying amount \$'000	l Fair value \$'000	2023 Carrying amount \$'000	Fair value \$'000
<i>Non-traded financial liabilities</i> Current lease liabilities (secured) Non-current lease liabilities (secured) Current borrowings (unsecured) Non-current borrowings (unsecured)	13,973 57,953 75,634 <u>4,923,000</u> 5,070,560	13,973 57,953 75,634 4,663,132 4,810,692	13,294 66,976 - 4,460,000 4,540,270	13,294 66,976 4,201,340 4,281,610
Weighted average interest rate	4.0%	4,010,092	3.8%	4,201,010

Queensland Rail Limited 31 30 June 2024

17 Financial risk management (continued)

(b) Risks arising from financial instruments (continued)

The carrying amount of current borrowings in the current year of \$75.6 million represents the drawdown of funds from the working capital facility with QTC. In the prior period the working capital facility was in credit to the amount of \$108.2 million and is included in cash and cash equivalents.

The following table summarises the sensitivity of the group's debt with QTC to interest rate risk:

		Interest rate risk			
	a i	-1%		+1%	
30 June 2024	Carrying amount \$'000	Profit \$'000	Equity \$'000	Profit \$'000	Equity \$'000
Client Specific Debt Pool Total increase / (decrease)	4,508,000	2,889 2,889	2,889 2,889	(2,572) (2,572)	(2,572) (2,572)
30 June 2023					
Client Specific Debt Pool Total increase / (decrease)	4,045,000	2,679 2,679	2,679 2,679	(2,270) (2,270)	(2,270) (2,270)

Debt is drawn from facilities with QTC incorporating fixed and floating debt and is initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost, using the effective interest rate method. Interest is accrued and paid monthly.

The short-term borrowing arrangements with QTC are interest bearing. The borrowing arrangements are subject to annual review.

Borrowing costs which are directly attributable to the construction of material qualifying assets are recognised as part of the cost of the asset. Qualifying assets are assets not funded from other sources, acquired from capital projects with a budget of more than \$1.0 million and take a substantial period of time to prepare for intended use or sale. The rate used to determine the amount of borrowing cost to be capitalised is the QTC interest rate applicable to the group's outstanding borrowings during the year, in this case 4.01% (2023: 3.78%). During the year, interest costs of \$43.7 million were capitalised (2023: \$30.5 million).

(ii) Credit risk

The maximum exposure to credit risk, excluding the value of any collateral or other security, at reporting date to recognised financial assets is the carrying amount, net of any allowances for impairment of those assets, as disclosed in the consolidated balance sheet and notes to the consolidated financial statements.

Policies are in place to ensure that sales of products and services are only made to customers with an appropriate credit history.

Derivative counterparties and cash transactions are limited to high credit quality financial institutions and are approved by the Board. The group has policies that limit the amount of credit exposure to any one financial institution.

The group utilises a working capital facility with Queensland Treasury Corporation (QTC), investing any surplus daily. QTC has a rating of AA+, therefore the credit risk is minimal unless the ratings decrease significantly.

The group does not have any material credit risk exposure to any single receivable or group of receivables under financial instruments entered into by the group, other than amounts owing by the State of Queensland.

(iii) Liquidity risk

Liquidity risk management within the group ensures sufficient cash to meet short-term and long-term financial commitments.

Financing arrangements

The amount of undrawn working capital facilities with QTC available at reporting date is \$174.4 million (2023: \$250.0 million).

17 Financial risk management (continued)

(b) Risks arising from financial instruments (continued)

Long-term borrowings are sourced from the Client Specific Debt Pool subject to annual approval of the Queensland State Treasurer. The group may draw up to the amount of the approved borrowing program.

Borrowings are not secured.

Maturity analysis

The amounts disclosed in the maturity table below are the contractual undiscounted cash flows.

QTC long-term borrowings are interest only with no fixed repayment date for the principal component. For the purposes of completing the maturity analysis, the principal component of this loan has been included in the over five years time band with no interest payment assumed in this time band.

30 June 2024	Less than 1 year \$'000	Between 1 and 5 years \$'000	Over 5 years \$'000	Total contractual cash flows \$'000
Non-derivatives

Total non-derivatives	877,150	648,050	4,543,200	6,068,400

18 Capital risk management

The group's objectives when managing capital are to safeguard its ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The responsible Ministers advise the appropriate methodology in determining the dividend payable annually.

The group monitors capital on the basis of the total debt to total capital ratio. This ratio is calculated as total debt divided by total capital. Total debt is calculated as borrowings and lease liabilities as shown in the consolidated balance sheet. Total capital is calculated as equity as shown in the consolidated balance sheet plus total debt.

The group's total debt to total capital ratios are as follows:

	2024 \$'000	2023 \$'000
Borrowings	4,998,634	4,460,000
Lease liabilities	71,926	80,270
Total debt	5,070,560	4,540,270
Total equity	<u>3,196,607</u>	3,196,272
Total capital	<u>8,267,167</u>	7,736,542
Total debt to total capital ratio	61%	59%

18 Capital risk management (continued)

The group is also required by QTC to maintain an Earnings Before Interest and Tax (EBIT) Interest Coverage of greater than 1.25:1, except where the total debt to total capital is greater than 70%, in which case the EBIT Interest Coverage must be at least 2:1. The group has complied with this requirement for both the current and prior reporting periods.

Unrecognised items

19 Contingencies

Contingencies comprise guarantees either held or issued by the group and assets and liabilities not qualifying for recognition at reporting date. A majority of the guarantees held relate to performance guarantees on construction contracts provided by third parties.

The group had contingencies at reporting date in respect of:

(a) Contingent assets

	2024 Fair value \$'000	2023 Fair value \$'000
Third party guarantees	10,100	10,100
Bank guarantees Insurance company guarantees	99,506 2,129	127,627 830
	111,735	138,557

The prior period third party guarantees have been restated to reflect a corrected expiry date.

(b) Contingent liabilities

Issues relating to common law claims and product warranties are dealt with as they arise. There were no material contingent liabilities requiring disclosures in the financial statements other than as set out below.

	2024 Fair value \$'000	2023 Fair value \$'000
Non-qualifying liabilities	1,500	10,805
Bank guarantees	<u> </u>	<u>39,793</u> 50,598

Litigation

A number of common law claims are pending against the group. Provisions are taken up for some of these exposures based on the Board's determination and are included as such in note 10.

20 Commitments

The future commitments of the group (excluding GST) at reporting date were as follows:

(a) Commitments payable

	2024 Capital \$'000	2023 Capital \$'000
Within one year	98,650	148,618
Later than one year but not later than five years	316,093	269,923
Later than five years	1,132	177,638
	415,875	596,179

Queensland Rail Limited 34 30 June 2024

20 Commitments (continued)

(b) Commitments receivable

	2024 Lease \$'000	2023 Lease \$'000
Within one year	5,228	6,241
Later than one year but not later than five years	8,332	11,939
Later than five years	19,757	24,497
	33,317	42,677

21 Events occurring after the reporting period

No matters or circumstances have arisen since the end of the financial year which significantly affected, or may significantly affect the operations of the group, the results of those operations, or the state of affairs of the group.

Queensland Rail continues to work with Cross River Rail Delivery Authority and the Queensland Government to give effect to asset transfers through Ministerial directions.

Other items

22 Key management personnel disclosures

(a) Responsible Ministers

Ministerial remuneration entitlements are outlined in the Legislative Assembly of Queensland's Members' Remuneration Handbook. The group does not bear any cost of remuneration of Ministers. The majority of Ministerial entitlements are paid by the Legislative Assembly, with the remaining entitlements being provided by Ministerial Services Branch within the Department of the Premier and Cabinet.

The responsible Ministers of Queensland Rail and its subsidiaries during the year ended 30 June 2024 were:

- C Dick MP
 Treasurer and Minister for Trade and Investment
- B Mellish MP Minister for Transport and Main Roads and Minister for Digital Services (appointed 18 December 2023)
- M Bailey MP Minister for Transport and Main Roads and Minister for Digital Services (ceased 17 December 2023)

(b) Directors and specified executives

Compensation and other terms of employment for the specified executives are formalised in service agreements.

Details of the compensation of each specified Director and executive are as follows:

	2024 \$'000	2023* \$'000
Short-term benefits	5,509	5,151
Long-term benefits	58	99
Post-employment benefits	468	447
	6,035	5,697

* The prior year aggregate includes all compensation provided to individuals who held a key management personnel role, however, the remuneration tables for Directors and specified executives only includes information for individuals holding key management personnel roles during the current reporting period.

(b) Directors and specified executives (continued)

Short-term benefits includes cash salary, annual leave and long service leave paid and accrued in the reporting period, fees and non-monetary benefits. Non-monetary benefits represent the value of Exempt and Reportable Fringe Benefits for the respective Fringe Benefits Tax year.

(c) Key management personnel compensation

(i) Directors of Queensland Rail Limited and On Track Insurance Pty Ltd

2024 Directors		Short-term Director fees \$'000	Post- employment Super- annuation \$'000	Total \$'000

Finance and Corporate Services

¹ Includes annual leave payments and leave accrued in the period but not yet taken.

² Includes long service leave payments and long service leave accrued in the period but not yet taken. May include reversals of long service leave accruals if the 7-year entitlement period is not reached on cessation.

The 2023 values have been restated to include annual leave and long service leave accrued in the reporting period.

The above executives' remuneration are amounts recharged from Queensland Rail in accordance with the Managed Services Agreement. The amounts were incurred by Queensland Rail on behalf of the company and are also disclosed in the Key Management Personnel note of the Queensland Rail financial statements.

The above are the key executives representing the group. These executives provide advice in relation to strategy and future direction of the group under the business model adopted. The subsidiary entity does not have any senior executives who are involved in setting strategy or future direction for the entity and no subsidiary executives are disclosed above for this reason.

Termination of the employment of an executive can be made by Queensland Rail to the specified executive either with notice, without notice or due to the incapacity of the specified executive. The formal policy concerning the termination of employment of Queensland Rail chief and senior executives is the *Policy for Government Owned Corporation Chief and Senior Executive Employment Arrangements (version dated 27 October 2021)*. This policy was issued by the Government in the 2014/15 period and is applicable to arrangements issued from this period.

Chief Executive provisions

The employment of the Chief Executive may be terminated by the Board at any time in accordance with section 30(3) of the *Queensland Rail Transit Authority Act 2013*.

(c) Key management personnel compensation (continued)

The employment of the Chief Executive may also be terminated by either party at any time giving the other party 3 months written notice of termination. When such termination occurs, the Chief Executive is entitled to the following:

- any accrued leave;
- salary for the balance of the notice period (if Queensland Rail elects to make payment in lieu of the notice period); and
- if the termination is by Queensland Rail in circumstances other than serious misconduct, a termination payment of 6 months' salary.

No other termination or compensation payments are payable to the Chief Executive.

The employment of the Chief Executive may be terminated by Queensland Rail immediately, and without compensation, if the Chief Executive engages in misconduct or other unethical behaviour.

Senior Executive provisions

Under the *Policy for Government Owned Corporation Chief and Senior Executive Employment Arrangements* (version dated 27 October 2021), all new appointments to senior executives are on an ongoing (tenured) basis with no specific end date. Termination by notice can be made by the specified executive or Queensland Rail at any time by either party giving to the other 1 month written notice. When such termination occurs, specified executives that are tenured are entitled to the following:

- any accrued leave;
- salary for the balance of the notice period (if Queensland Rail elects to make payment in lieu of the notice period); and
- if the termination is by Queensland Rail in circumstances other than serious misconduct, a termination payment of 3 months' salary.

Queensland Rail reviews the total fixed remuneration of eligible employees on 1 July each year. Senior Executives' individual remuneration reviews require Board approval under the *Policy for Government Owned Corporation Chief and Senior Executive Employment Arrangements (version dated 27 October 2021).* Under these provisions, the Board has the discretion to approve annual total fixed remuneration increases to a maximum of 10% per annum, subject to the total fixed remuneration not exceeding the latest market median for the position's work value. The Board should act prudently and take account of the economic climate when considering annual total fixed remuneration increases.

The Chief and Senior Executives participate in the Queensland Rail performance management process based on biannual and annual performance reviews. Annual performance results of the Executives are assessed and calibrated by the Chief Executive Officer and Group Executive People and Culture. The Board is responsible for the assessment of the Chief Executive Officer's performance.

(iii) Performance payments

There are no Chief or Senior Executive positions that are eligible for performance payments.

A residual Performance Payment Scheme operates as a grandfathered arrangement. The framework consists of the following key aspects:

- Organisational Key Performance Indicators (KPIs) are aligned to Operational Plan performance targets including On Time Running (OTR), Reliability - Citytrain, Signals Passed at Danger, Customer Injuries, Customer Index - Citytrain Services and Customer Index - Traveltrain. The group must achieve the KPI benchmarks under the Rail Transport Service Contract (TSC) before any performance payment is considered and the group must meet the enterprise wide organisational KPIs (as per measurement determined by the Board).
- The group's businesses and functions must meet the Functional KPIs (as per measurement determined by the Chief Executive Officer).
- Individual KPIs set by the employee's manager and approved by the respective Senior Executive.
- KPI results are reviewed by the Board and the Chief Executive Officer on an annual basis to ensure
 payments are aligned with the achievement of individual and organisational performance objectives. Only
 those performance payment eligible employees whose performance is assessed as being the highest rating
 under the Performance Ratings (i.e. "exceeds expectations") will be eligible for any Performance Payment
 payout across all tiers of the framework; and
- Board and Chief Executive Officer discretion is reserved in the payment against the scheme based on consideration of performance as well as community and shareholder expectations.

(c) Key management personnel compensation (continued)

There remain 5 specified award employees eligible for performance based, at risk, incentive bonus compensation.

Performance bonus compensation paid to employees is granted upon approval by the Chief Executive Officer or in accordance with a subsidiary agreement. The amount of the compensation is determined by performance against key performance indicators set at the start of the performance year for employees or conditions of a subsidiary agreement for work units.

During the current and prior reporting period, no performance bonus compensation was paid or was accrued for.

(d) Transactions with key management personnel

During the current and prior reporting periods:

- S Cornish, specified executive of Queensland Rail Limited, was an Industry Director at Rail Industry Safety and Standards Board (RISSB). Queensland Rail Limited paid corporate membership and course fees to RISSB during these periods.
- S Riedel, specified executive of Queensland Rail Limited until 6 February 2024, was a Director of Move Bank. The group provided rental accommodation to Move Bank during these periods. During the current and prior reporting periods, the nephew of S Riedel provided electrical works to the group through his company South East Electrical and Airconditioning.
- K Stapleton, specified executive of Queensland Rail Limited, was a Director of Australasian Railway Association. Queensland Rail Limited paid course fees during these periods, conferences in the current reporting period and corporate membership in the prior reporting period to Australasian Railway Association.

During the current reporting period:

- R Munn, specified executive of Queensland Rail Limited, was a Director of TrackSAFE Foundation. Queensland Rail Limited paid corporate contribution and course fees to TrackSAFE Foundation during this period.
- M Goss, Director Queensland Rail Limited, was a Director of Metro South Hospital and Health Services. Queensland Rail Limited paid for medical services during this period to Metro South Hospital and Health Services.
- S Cantwell, Director of Queensland Rail Limited, was a Director of Port of Brisbane Pty Ltd. Queensland Rail Limited paid for hire charges during this period to Port of Brisbane Pty Ltd.

During the prior reporting period:

- R Peters, Director of Queensland Rail Limited until 30 September 2022, was the Vice President (Campus Infrastructure and Services) of Monash University. Queensland Rail Limited engaged Monash University for project, calibration and training services during this period.
- D Marchant, Director of Queensland Rail Limited, was a Non-Executive Director of Airservices Australia. Queensland Rail Limited provided telecommunication services to this organisation during this period.

All figures displayed below are exclusive of GST.

Current borrowings		75,634	-	Short-term borrowings
Other current liabilities		4,210	6,735	Asset funding and other income in advance
Non-current borrowings		4,923,000	4,460,000	Long-term borrowings
Other non-current liabilities		34,384	35,618	Asset funding in advance

24 Subsidiary

The consolidated financial statements incorporate the assets and liabilities of the subsidiary of Queensland Rail Limited as at reporting date and the results of the subsidiary for the year then ended.

Name of entity	Country of incorporation	Class of shares	Equity holding 2024 %	2023 %
On Track Insurance Pty Ltd	Australia	Ordinary	100	100

The principal activities of On Track Insurance Pty Ltd are the provision of insurance coverage for all claims relating to events for both former parent, Aurizon Operations Limited (formerly QR National Limited) and Queensland Rail Limited up until 30 June 2010.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred.

Non-current inter-company loans may not be demanded by the other entity and do not become payable other than through settlement of obligations associated with the loans or one of the entities exits the wholly-owned group.

The Managed Services Agreement between Queensland Rail and its subsidiary, Queensland Rail Limited, permits all inter-company balances between both entities to be legally offset and settled on a net basis at the end of each reporting period.

Accounting policies have been adopted consistently across the group.

Investment in the subsidiary is accounted for at cost in the financial records of the parent entity.

25 Remuneration of auditors

During the year the following fees were paid or payable for services provided by the auditor of the group:

2024 \$'000	2023 \$'000
557	521
557	521
2024 \$'000	2023 \$'000
12.664	12,863
110.665	98,160
123,329	111,023
	\$'000 <u>557</u> <u>557</u> 2024 \$'000 12,664 110,665

* Forms part of reimbursement of employee costs.

27 Climate change

The group acknowledges climate change and is aware of the State of Queensland's wide range of information and resources relating to climate change risks, strategies and actions including Queensland's 2035 Clean Economy Pathway, Queensland Energy and Jobs Plan, Climate Adaptation Strategy and the Queensland Sustainability Report.

The group has a broad understanding of the key climate change hazards and the potential and actual impacts such physical risks may pose to its operations and asset base, including disruptions, incidents and changed maintenance / repair regimes, and also recognises the risks and opportunities associated with global and local transition to a low carbon economy. The group is progressing additional physical climate risk assessments and embedding of climate change risk considerations into planning and investment processes where applicable, to facilitate effective adaptation outcomes and demonstrate delivery of a sustainable, resilient and fit for purpose operations.

Assessments of material accounting judgement and estimates associated with climate change risks are able to be considered through extant processes including those for potential changes in useful asset life, fair value of assets and the recognition of provisions or possible contingent liabilities.

No adjustments to the carrying value of recorded assets or other adjustments to the amounts recorded in the financial statements were recognised during the financial year as a result of climate-related risks impacting the current accounting estimates and judgements. The group continues to monitor the emergence of material climate-related risks that may impact financial statements, including those that arise under the Queensland Government Queensland's 2035 Clean Economy Pathway and other Queensland Government climate-related policies or directives.

28 Parent entity financial information

The financial information for the parent entity, Queensland Rail Limited, has been prepared on the same basis as the consolidated financial statements, except that investments in subsidiaries are accounted for at cost in the financial statements of Queensland Rail Limited.

(a) Summary financial information

The individual financial statements for the parent entity show the following aggregate amounts:

Balance sheet	2024 \$'000	2023 \$'000
Current assets Non-current assets	248,310 9,556,902	329,175 8,905,663
Total assets	9,805,212	9,234,838
Current liabilities Non-current liabilities Total liabilities	991,028 5,625,326 6,616,354	906,707 5,139,608 6,046,315
Net assets	3,188,858	3,188,523
Contributed equity Hedging reserves Retained earnings Total equity	3,078,114 - 110,744 3,188,858	3,078,114 (335) 110,744 3,188,523
Profit or loss for the year	140,611	149,793
Total comprehensive income	140,946	149,917

28 Parent entity financial information (continued)

(b) Guarantees entered into by the parent entity

The parent entity has not provided financial guarantees in respect of bank overdrafts and loans of subsidiaries.

In addition, there is no cross guarantee given by Queensland Rail Limited to On Track Insurance Pty Ltd.

(c) Contingent liabilities of the parent entity

Issues relating to common law claims and product warranties are dealt with as they arise. There were no material contingent liabilities requiring disclosures in the financial statements except as outlined in note 19. All provisions except provision for insurance claims relate to the parent entity.

(d) Contractual commitments for the acquisition of property, plant or equipment

At reporting date, the parent entity had contractual commitments. For information about these commitments please see note 20. All commitments outlined in this note relate to the parent entity.

29 Summary of other accounting policies

The principal accounting policies adopted in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial statements are for the consolidated entity consisting of Queensland Rail Limited and its subsidiary, On Track Insurance Pty Ltd.

Queensland Rail Limited is a for-profit corporation limited by shares, incorporated and domiciled in Australia and owned by Queensland Rail. Queensland Rail Limited is a wholly-owned subsidiary of Queensland Rail. Queensland Rail is required to carry out its functions as a commercial enterprise, as specified in section 10 of the *Queensland Rail Transit Authority Act 2013*. Queensland Rail may carry out those functions directly, or indirectly via its subsidiary. These financial statements are denominated in Australian dollars.

Queensland Rail Limited is referred to in this financial report as the "company" or the "parent". Queensland Rail Limited together with its subsidiary, On Track Insurance Pty Ltd, are collectively referred to as the "group".

These financial statements were approved for issue by the Directors on 29 August 2024. The Directors have the power to amend and reissue the financial statements.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board, and the *Corporations Act 2001*.

(i) Compliance with Australian Financial Reporting Standards

The consolidated financial statements of the group comply with the Australian Accounting Standards as issued by the Australian Accounting Standards Board (AASB).

(ii) New and amended standards adopted by the group

The group has applied the following standards and amendments for the first time for their annual reporting period commencing 1 July 2023:

• AASB 2021-2 Amendments to Australian Accounting Standards - Disclosure of Accounting Policies Definition of Accounting Estimates [AASB 7, AASB 101, AASB 108, AASB 134 & AASB Practice Statement 2].

The amendments listed above did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

(iii) New standards and interpretations not yet adopted

Standards and amendments that are available for early adoption for the current financial year beginning 1 July 2023 were not early adopted and are not expected to have a material impact on the accounts of the group in future periods.

(iv) Historical cost convention

These financial statements have been prepared under the historical cost convention, except for certain assets which, as stated, are at fair value.

29 Summary of other accounting policies (continued)

(a) Basis of preparation (continued)

(v) Going concern

The financial report for the group is prepared on a going concern basis. Current liabilities exceed current assets by \$748.2 million. The group has access to a short-term borrowing facility up to the amount of \$250.0 million of which \$174.4 million is undrawn as at reporting date (refer note 17(b)(iii)). The group has also secured approval from the Queensland Government to source additional long-term borrowings in the 2024/25 financial year up to an amount of \$1,257.0 million to support the capital program throughout that year. In addition revenue through the Rail Transport Service Contract, adequate interest coverage and a low total debt to total capital ratio provides further assurance of the group's status as a going concern.

(b) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the group's entities are measured using the currency of the primary economic environment in which the entity operates (i.e. the functional currency). The consolidated financial statements are presented in Australian dollars, which is the group's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of these transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss, except when they are deferred in equity as qualifying cash flow hedges and qualifying net investment hedges.

(c) Rounding of amounts / comparative restatements

The company is of a kind referred to in the ASIC Corporations Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to the "rounding off" of amounts in the financial report. Amounts in the financial report have been rounded off in accordance with that instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

Comparative information has been restated where necessary to be consistent with disclosures in the current reporting period.

(d) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.

Trade receivables and trade payables in the consolidated balance sheet are shown inclusive of GST. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the consolidated balance sheet.

Cash flows are presented in the cash flow statement on a gross basis, except for the GST component of investing or financing activities, which are disclosed as operating cash flow.

Queensland Rail, parent entity, and its subsidiaries are grouped for GST purposes. This means that any inter-company transactions within the Queensland Rail group do not attract GST. Queensland Rail is the representative member of the GST group and is responsible for reporting all GST liabilities and credits on behalf of the group.

(e) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(f) Trade and other receivables

Trade and other receivables are initially recognised at the transaction price and are subsequently measured at and classified as amortised cost. Trade receivables generally have standard payment terms of 7 to 30 days. The group applies the simplified approach to providing for expected credit losses prescribed by AASB 9, which requires the use of the lifetime expected loss provision for all trade receivables.

29 Summary of other accounting policies (continued)

(f) Trade and other receivables (continued)

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off. An allowance for impairment of trade receivables is established when there is objective evidence that the group will not be able to collect all amounts due according to the original terms of the debt. Trade receivables have not had a significant increase in credit risk since they were originated.

Other receivables are classified as current assets unless collection is not expected within the 12 months from the reporting date.

(g) Reimbursement of employee costs

Queensland Rail Limited does not have any employees. The reimbursement of Queensland Rail employee costs disclosed in the consolidated statement of comprehensive income are amounts recharged by Queensland Rail in accordance with the Managed Services Agreement and external contractors engaged by Queensland Rail Limited.

(h) Insurance

The group insures against risks which are largely uncontrollable, have significant or catastrophic consequences for assets and / or revenue and the aggregate costs of which would exceed the limit of exposure the organisation is prepared to accept.

Insurance cover has accordingly been effected for a variety of such risks. Other areas of risk exposure are self-insured, include workers' compensation.

Until 30 June 2010, self-insurance and other underwriting activities were performed by Queensland Rail Limited's wholly-owned subsidiary, On Track Insurance Pty Ltd. On Track Insurance Pty Ltd was transferred from Aurizon Operations Limited (formerly QR National Limited) on 6 October 2010 and will continue to provide cover for claims relating to events up until 30 June 2010 for both Queensland Rail Limited and the Aurizon Operations Limited group.

(i) Environmental regulation

The group is subject to a variety of laws and regulations in the jurisdiction in which it operates or maintains land. Where remediation measures are probable and can be reliably measured, such costs incurred in complying with relevant laws and regulations are accounted for in accordance with the policy in note 10.

Consolidated entity disclosure statement

This statement has been prepared using supporting documentation, including company registration data and information provided to tax authorities, up to 30 June 2024.

		Body cor	porates	Tax residency

* These entities are part of a tax consolidated group with Queensland Rail as the head entity and taxpayer in respect of the group.

Directors' declaration

In the Directors' opinion:

- (a) the financial statements, notes and other statement set out on pages 8 to 50 are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Australian Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements, and
 - (ii) giving a true and fair view of the group's financial position as at 30 June 2024 and of its performance for the year ended on that date, and
 - (iii) giving a true and correct view of the group's consolidated entity disclosure statement, and
- (b) there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of Directors.

D Marchant AM Chair

Brisbane, Qld 29 August 2024

INDEPENDENT AUDITOR'S REPORT

To the Board of Queensland Rail

Report on the audit of the financial report

Opinion

I have audited the accompanying financial report of Queensland Rail (the parent) and its controlled entities (the group).

The financial report comprises the balance sheets as at 30 June 2024, the statements of comprehensive income, statements of changes in equity and statements of cash flows for the year then ended, notes to the financial statements including material accounting policy information and the management certificate.

In my opinion, the financial report:

- a) gives a true and fair view of the parent's and group's financial position as at 30 June 2024, and their financial performance and cash flows for the year then ended; and
- b) complies with the *Financial Accountability Act 2009*, the *Financial and Performance Management Standard 2019* and Australian Accounting Standards.

Basis for opinion

I conducted my audit in accordance with the *Auditor-General Auditing Standards*, which incorporate the Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of my report.

I am independent of the parent and group in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to my audit of the financial report in Australia. I have also fulfilled my other ethical responsibilities in accordance with the Code and the *Auditor-General Auditing Standards*.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key audit matters

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the financial report of the current period. I addressed these matters in the context of my audit of the financial report as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

Depreciation expense (\$392.2 million)

Refer to note 7(a) and 7(d) in the financial report

Key audit matter	How my audit addressed the key audit matter
Depreciation expense is a significant balance that requires management to forecast the useful life of assets and their component parts.	My procedures included but were not limited to: Assessing the useful life estimates of assets and their component parts by:
	 reviewing management's annual assessment of useful lives and condition assessments. This represents a comprehensive review of all assets
	 for a sample of remaining useful life reviews examining supporting documentation and confirming revised estimates to the fixed asset register
	 checking the consistency of useful lives compared to the prior year
	• comparing useful life assessments recorded in the fixed asset register to the disclosed accounting policy
	• reviewing for evidence of asset obsolescence, failure or disposals that could indicate a need to review useful life assumptions
	 reviewing for evidence that the entity will use assets for longer than the useful lives estimated for valuation and depreciation purposes
	 for a sample of assets, recalculating depreciation expense
	 evaluating remaining useful life estimates for reasonableness with reference to management's documented assessments, historical disposal rates, condition assessments for older assets, and long-term asset management plans and budgets.

Indicators of impairment of property, plant and equipment

Refer to note 7(e) of the financial report

Key audit matter	How my audit addressed the key audit matter
Management have considered the existence of impairment indicators during 2023-24 and performed an impairment test to ensure that the assets carrying value was greater than its value in use.	 My procedures included but were not limited to: assessing the adequacy of management's review of the impairment process obtaining an understanding of the methodology used and assessing its design, integrity and appropriateness for the impairment test with reference to common industry practice

Key audit matter		How my audit addressed the key audit matter
The impairment assessment is complex and management adopts assumptions in developing inputs used in the discounted cashflow models to calculate an asset's value in use.	•	challenging the reasonableness of key assumptions based on my knowledge of the entity and industry
	•	assessing the identification of cash generating units, and input assumptions adopted by management in the value in use model
	•	evaluating the reasonableness of management's documented considerations of indicators of impairment against my knowledge of the entity
	•	reviewing the accuracy of calculations used in the value in use model
	•	reviewing the impairment model to assess the models used and the reasonableness of key assumptions applied in the assessment against my knowledge of the entity and industry
	•	reviewing the asset impairment accounting policies disclosures in the financial statements for consistency with Australian Accounting Standards.

Other information

Those charged with governance are responsible for the other information.

The other information comprises the information included in the entity's annual report for the year ended 30 June 2024 but does not include the financial report and our auditor's report thereon.

My opinion on the financial report does not cover the other information and accordingly I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial report, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or my knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

Responsibilities of the entity for the financial report

The Board is responsible for the preparation of the financial report that gives a true and fair view in accordance with the *Financial Accountability Act 2009*, the *Financial and Performance Management Standard 2019* and Australian Accounting Standards, and for such internal control as the Board determines is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

The Board is also responsible for assessing the group's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless it is intended to abolish the group or to otherwise cease operations.

Auditor's responsibilities for the audit of the financial report

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of my responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at:

https://www.auasb.gov.au/auditors responsibilities/ar5.pdf

This description forms part of my auditor's report.

Report on other legal and regulatory requirements

Statement

In accordance with s.40 of the Auditor-General Act 2009, for the year ended 30 June 2024:

- a) I received all the information and explanations I required.
- b) I consider that, the prescribed requirements in relation to the establishment and keeping of accounts were complied with in all material respects.

Prescribed requirements scope

The prescribed requirements for the establishment and keeping of accounts are contained in the *Financial Accountability Act 2009*, any other Act and the *Financial and Performance Management Standard 2019*. The applicable requirements include those for keeping financial records that correctly record and explain the entity's transactions and account balances to enable the preparation of a true and fair financial report.

30 August 2024

Vaughan Stemmett as delegate of the Auditor-General Queensland Audit Office Brisbane
